# LtCol R. Dingle Memorial Anthrax Vaccine Justice Act of 2019

Presented 19 Nov 2019

---

# Background

The Dingle Memorial Anthrax Vaccine Justice Act of 2019 (MAVJA) was inspired by the original dutiful diligence and persistence of an Airman of the United States Air Force on behalf of all servicemembers. LtCol Russell E. Dingle passed away in 2005, but his seminal work identifying the illegalities associated with the anthrax vaccine mandate led to the immunization's overdue FDA licensure on Dec 19th, 2005. Record corrections prior to that date are simply the right thing to do, since the earlier order violated 10 USC § 1107.

AMERITHRAX INVESTIGATIVE SUMMARY

Released Pursuant to the Freedom of Information Act

# DoJ findings...

FBI concluded the attacks against Sen. Daschle, etc., were committed by a US Army scientist whose motive was to save his "failing" anthrax vaccine program by creating a "scenario where people all of a sudden realize the need to have this vaccine."

- The FBI was given evidence showing that the White House and Senator Daschle questioned the vaccine and punishments of our troops, until the anthrax attacks.
- Excerpt from Sen Daschle letter to SecDef Rumsfeld...

“...the Defense Department has already taken disciplinary action against a number of people who have refused to take or administer the anthrax vaccination and has stated its intention to pursue legal action against others who act similarly in the future. Although a number of questions about the safety and effectiveness of the anthrax vaccination would appear to remain unanswered, the Pentagon has made it clear that it does not intend to revisit either the punishments already meted out or its decision to discipline those who act similarly in the future.”

MEMORANDUM FOR PAUL WOLFOWITZ  
FROM: KARL ROVE  
SUBJECT: GULF WAR SYNDROME AND ANTHRAX

Here is material which has been sent to me by Ross Perot regarding the Gulf War Syndrome, as well as some material on the Anthrax vaccine problem.

He also offered me a packet of materials from the Lydon LaRouche crowd about Richard Armitage, but I turned him down.

I do think we need to examine the issues of both Gulf War Syndrome and the Anthrax vaccine and how they can be dealt with. They are political problems for us.

## US Servicemembers were the “guinea pigs” and Legally Disadvantaged

Once the court case of *Doe v Rumsfeld* [341 F.Supp.2d 1, 16 (D.D.C.2004)] was concluded, the court determined that the Government’s position “was not substantially justified”, buttressing its previous opinion that *The Department of Defense may not make troops serve as “guinea pigs”*.

# New Information

As of 30 Oct 2019 a US Marine Sergeant who was Court Martialed in 2003 had his case completely overturned!

After exhausting all administrative remedies available, the Board effectively reversed his punishment, including opening the door for him to return to Uniform and restoring him to his previous rank.

## New Information

That Marine worked diligently with the aid of others who had pieces of the puzzle, putting his life back together while collecting bits of information to eventually exonerate himself.

It took 16 years...

# New Information

But....

There are other Veterans who are similarly situated, who don't have the puzzle pieces and don't know how to effectively petition their case.

**The Bill is destined to be an  
exoneration for all Veterans  
who refused prior to Dec  
2005 and to work on an  
automatic basis.**

**Because....**

**It's the right thing to do!**
