

Mr. Mook.

My friend, I've never met your acquaintance **nor seen you at any city commission meeting so unfortunately, you do not know the process of how this will work. Since my family has been in the state of South Dakota before it was a state I feel very confident in leading and directing our future forward.** If you'd like to address any concerns, please attend a city council meeting and let your voice be heard.

One day in the very near future, you may "hit your wagon to me" 😊

Hopefully, see you very soon at our meetings, for **I would be happy to explain some things to you has one of our newest citizens in our municipality. A reminder, some of us have been here a very long time. Not just since the 1960s... Or whenever you came in the 21st century. Take your lead from those who know the prerogative of the area. Come talk to me sooner the later, Mr. Mook, and inform yourself better than secondhand knowledge.** I'll expect you at our next meeting and this will be addressed.

Sincerely,

Commissioner Joseph
Deadwood City, S.D.
