COURSE OVERVIEW

This course prepares students to perform Driver/Operator-Pumper duties aligned with NFPA 1002 (Chapters 4 & 5). Students will build knowledge and hands-on competence to safely operate and maintain a fire department pumper during emergency operations.

Field Evolutions & Topics Include:

- Relay pumping, drafting, and water supply operations
- Foam operations and pump hydraulics
- Driving practices and apparatus inspections/maintenance
- Pump theory, terminology, gauges, relief valves, governors, and primers
- On-site proctored skills evaluation and final exam (in addition to the TCFP exam)

Certification Note: TCFP passing exam scores are valid for 2 years. Students must apply for certification before the exam expiration date or retest to qualify.

PREREQUISITES & REQUIREMENTS

Prerequisite: Present a valid Texas Class C (passenger) driver's license on Day 1. Students without a valid license will not be allowed to remain in class.

Textbook: IFSTA, *Pumping and Aerial Driver/Operator Handbook*, 3rd edition.

Required for class: Textbook, Laptop/Tablet.

Dress Code: Duty uniform required on Skills Day.

Course Location:

Wilson County ESD #2 - Station 1
