

**DISTRICT 2 EMERGENCY SERVICES, INC.  
11382 FM 775  
FLORESVILLE TX 78114**

**Monthly Command Report**

**For March 2021**

**Emergency Response:**

For the month of March, there were a total of **35** fire calls. Average response time for the month was **9** minutes and **18** seconds. This is a door-to-door time. An increased response time was experienced due to mechanical issues. Additional information can be viewed in the all in one report for the month.

For the month of March, there were total of **67** EMS calls with **50** Transports and **17** non- transports. Of the transports, there were **30** ALS and **20** BLS calls. **20** of which were facility transfers.

ALS- Advanced Life Support

BLS- Basic Life Support

**Emergency Vehicles:**

**B-21(91)**- Apparatus is being checked daily without any major issues to report.

**5-TON/B92**: No Change in status since January.

**2 ½ Ton/B 21(93)**: Apparatus had to go to Billy Bob's to have additional plumbing work done. Apparatus will be coming up for new tires and some suspension repairs.

**E-22(90)**: No change in status since January.

**E-21(91)**: Apparatus is being checked daily without any major issues to report. Annual PM was completed at Siddons Martin. Multiple gauges were replaced as well as a drain valve. Annual pump test completed.

**T-21(90)**: Apparatus is being checked daily without any major issues to report.

**M-23(90)**: Unit is being checked daily without any major issues to report.

**M-22(91)**: The medic unit is being checked daily without any major issues to report.

**M-21 (New Medic Unit)**: Unit is being checked daily without any issues to report.

**Command:** The unit is being checked daily without any major issues to report. Service is scheduled at Siddons Martin in April to repair cheveron and some minor electrical work.

**Rescue 21 (90):** Apparatus is being checked daily without any major issues to report. Toolboxes should be complete in April and will be mounted to the truck in house.

**MISC:**

All front-line apparatus including base station radios have been updated.

**Personnel:**

We are still working to increase our number of local volunteers.

**Administration:**

\*\*\*Command staff has been working closely with local and state agencies to ensure that our department is professionally trained and prepared for anything that may come from the COVID-19 Pandemic.

A regular Officer meeting will be held on April 8<sup>th</sup>.

**Training:**

EMS

Crews reviewed and trained on the following:

- Mega Codes
- 12 Leads
- Medical Scenarios with students
- Improvement of documentation for patient care reports
- Equipment & apparatus familiarization for new EMT's

Fire

Crews reviewed and trained on the following:

- Hose advancement techniques
- Brush truck operations
- Hose load techniques
- Pump operations
- Water mapping techniques
- Edraulic spreader & Cutter

- RMS Fire reporting
- Equipment & apparatus familiarization for new firefighters

### **Station:**

Any public walk ups to the department are being redirected to the front doors instead on leaving the apparatus bays open. This is to ensure health safety for both the public and the personnel.

### **Grants/Donations:**

Crews will continue working on the new Heavy brush truck in house, this must be in service by May per the Forestry service.

The apparatus will need to be painted and have department logo placed. We can do this in house but will need to buy supplies.

The bed fabrication is underway and is moving along well with no issues to report. The apparatus must be in service in May as a Forestry service requirement.

All new Edraulic rescue tools have now been received. A Extrication Tech class is being scheduled for May.

### **Public Relations:**

The department is beginning to sit back down to discuss and plan how we can safely begin to be more involved in the community with public relation events.

**Fire:** Our biggest obstacle remains to be the age and condition of apparatus and equipment, leaving more equipment out of service than in service. We have began spec'ing out replacement equipment & apparatus for the upcoming budget workshops.

### **EMS:**

The Standard Medical Operating Protocols are currently under annual review by Doctor Ogden and Chief Marconi. All protocols are being converted to flow chart format. The project is approximately 70% complete.

**Misc.:** A major focus point of the department has been to create a strong professional working relationship with surrounding departments.
