Personalizing Your Urn Choice

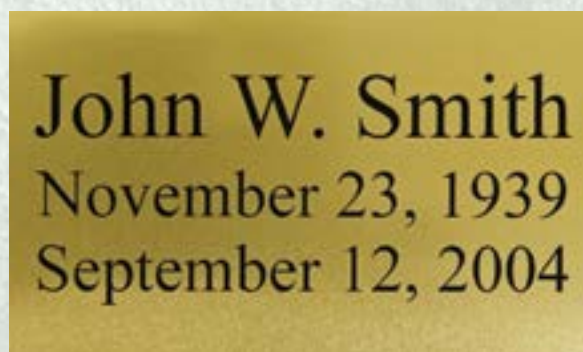

Many families like to add something special to an urn in order to tell a story about the person who has died. Personalization provides this opportunity by allowing you to place words and pictures on the urn selected.

There are a few simple steps to follow. The first is to choose from the 6 available fonts (or lettering styles) and select the fill color, which will enhance the engraved inscription on the urn.

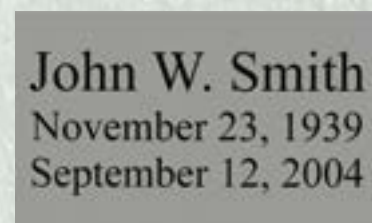

Font Choices: John W. Smith – Times New Roman
 John W. Smith – Lucida Calligraphy
 John W. Smith – Franklin Gothic Book
 John W. Smith – Edwardian Script
 John W. Smith – Bookman Old Style
 John W. Smith – Park Avenue

Lettering Color Choices: **Gold** **Silver** **White** **Black**

If simplicity is your desire, you may prefer to have the engraving done on an engraving plate which can then be attached to the urn. Select from the font choice above and then choose a color for the engraving plate. Plates are offered in brass-colored or silver-colored and in two sizes.

3" x 5"

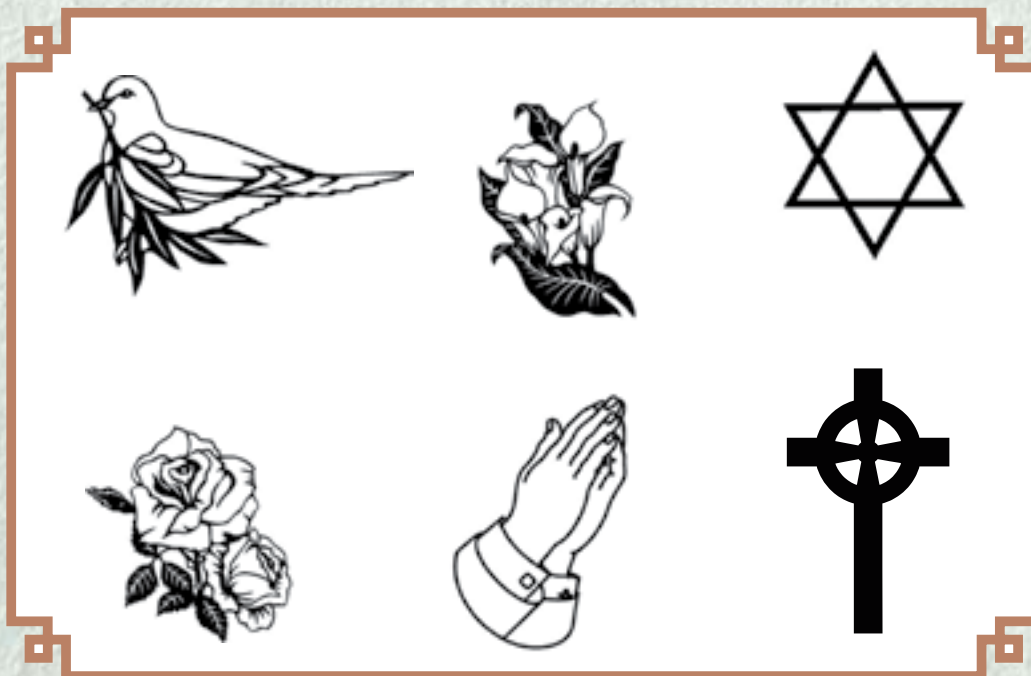

1.5" x 2.75"

If you wish to add a photograph to the urn, please provide the photograph (which will be returned unharmed) to your funeral director. There are several examples shown above.

You may choose to have a piece of line art etched onto the selected urn. If this is your wish, we will provide you with several options from which to choose and approve. A few examples are shown below.

Should you find that you would prefer a customized design, we will gladly work with you. There is often an added charge for customization, which we will quote as requested. Discuss these choices with your family and funeral director in order to design a truly personal memorial.
