

BACK TO BASICS

CLEANSE
EXFOLIATE
TONE

The first step to achieving healthy skin is stimulating the skin to function properly.

ZO's Getting Skin Ready system utilizes three core products which work synergistically to normalize skin function and restore overall skin health. Get back to the basics with this simple system of cleanse, exfoliate and tone.

ZO SKIN HEALTH INC
— BY ZEIN OBAGI MD —

A GSR System for Every Skin Type

We offer a full assortment of GSR solutions which can be custom fit to your patient's skin type and skin concerns. We have quick, easy to recommend systems based off the most common skin types but don't forget ZO® protocols can be completely customized by you, the skincare professional.

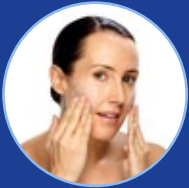

GSR is an essential step in preventing and improving acne, skin redness, post-inflammatory hyperpigmentation, uneven skin tone, enlarged pores, and rough, dull skin texture.

STEPS

1. CLEANSE

- Normalize skin with proper cleansing
- Remove surface debris

2. EXFOLIATE

- Promote exfoliation
- Improve circulation
- Enhance product penetration
- Remove dead skin cells

3. TONE

- Control oil
- Restore pH
- Soothe dry skin
