

YONI DETOX PEARLS

Traditional Botanical Feminine Care

Yoni Detox Pearls are traditional botanical vaginal pearls made with a blend of herbs historically used in feminine wellness and cleansing practices. They are designed to be incorporated into an intentional feminine self-care ritual and come with detailed instructions for proper use.

Every woman's body is unique, and individual experiences may vary. Please consult your healthcare provider if you have questions about whether this product is appropriate for you.

INGREDIENTS

Borneol • Stemonia Sessilifolia • Kochia Scoparia • Motherwort • Rhizoma Smilacis Glabrae • Angelica • Rhizoma Chuanxiong • Osthol

1 Cleanse = 3 Yoni Detox Pearls Each Pearl = 1 g of herbs

SUGGESTED USE

Begin use at least 3 days after your menstrual cycle has ended. Do not begin within 7 days of your expected menstrual period and do not use during active menstruation.

HOW TO USE

- Wash your hands thoroughly before opening the sealed package. Unravel the string and tie a knot close to the pearl for easier removal.
- Lie comfortably on your back with your knees bent toward your chest. Using a clean finger, gently insert one pearl into the vagina, leaving the string accessible for removal.
- Leave one pearl in place for 48-72 hours (2-3 days), then gently remove it.
- After removal, wear a pantyliner if needed and allow 24-48 hours before inserting another pearl. Vaginal discharge may occur following use.
- Wait at least 24 hours before inserting the next pearl.
- Repeat the process until all three pearls have been used, if desired.
- After completing your cleanse, vaginal discharge may continue for several days. Allow the body to release discharge naturally rather than attempting to remove it internally.

IMPORTANT WARNING & PRECAUTIONS

Do not use if pregnant or breastfeeding.

- Do not use during menstruation.
- Do not ingest the pearls.
- Do not exceed 3 pearls per menstrual cycle.
- Do not begin another cleanse for at least 7 days.
- Avoid sexual activity while a pearl is inserted and during the recommended treatment period.
- If you are sensitive, consider beginning with only one pearl.
- Discontinue use if you experience significant irritation, burning, pain, bleeding, unusual odor, fever, or other concerning symptoms.
- Consult your healthcare provider before use if you take prescription medications, have a gynecological or medical condition, are experiencing abnormal vaginal symptoms, or have concerns about using an intravaginal herbal product.

COMPLETE YOUR YONI CARE RITUAL

Pair your Yoni Detox Pearls with complementary products from our feminine wellness collection:

- **Yoni Wash** - Gentle herbal foaming cleanser for external intimate care
- **Yoni Detox Pearls (3 Pearls)** - Traditional botanical vaginal pearls
