Dear Donating Party,

Our nation and world are facing increased suicides and suicide attempts related to mental health illness and bullying in young people ages 13 through 21. Our organization, The A.T.O. is actively providing awareness and resources to those most affected by this epidemic. However, your support is crucial to further our efforts.

The Centers for Disease Control and Prevention suggests the number of those committing suicide is on a sharp rise, having increased 30% since 1999. From 1999 through 2016, suicide was the leading cause of death in the United States, and the 2nd leading cause of death among individuals 10 to 34. According to the World Health Organization, 800,000 people die of suicide globally every year, and it is the leading cause of death among individuals between the ages of 15 and 29. Research has shown that 90% of those who died by suicide had an underlying mental illness. The National Alliance of Mental Illness (NAMI) estimates that approximately 1 in 5 youth aged 13 to 18 experience severe mental disorder at some point during their life. NAMI also reported that 50% of all lifetime cases of mental illness begin by the age 14 and 75% by age 21.

Our organization has provided resources and partnered with organizations in Louisiana, Missouri, and Florida to conduct events and workshops to bring awareness of these very important issues. Additionally, we are excited about partnerships that has afforded us the opportunity to provide resources and training in Kenya, Africa in October 2019. You can help us spread the word and provide resources to those dealing with mental illness and thoughts of suicide in the United States and select countries around the world. Your support is needed and very much appreciated. Please take a moment to review the enclosure to learn more about our organization and goals.

We would love for you to partner with us by making a monetary donation to help us achieve our mission in defeating suicide by providing resources, information, and training to those most plagued with this serious situation.
