

# *Letter from the Managing Director (MD)*

*Dear Parents'/ Guardians',*

*With sincere greetings from the Aturkimi Academy family. We hope you all are fine with sound health.*

*Aturkimi Academy is a Co-Educational Institution affiliated to Central Board of Secondary Education (CBSE) vide affiliation no. 230122 and the Academy was affiliated to CBSE in the year 2012 and has a further vision to open Senior Secondary (Class XI & XII) from 2027.*

*I from my personal experience strongly believed the object of education must be practical. The student must learn to observe accurately, to think truthfully, to speak correctly and write clearly. Education is a continuous process which has no end. All through our life we should be learning, not only from book but from experience- from life itself. Aturkimi Academy has always been trying to impart quality education to developed not only the inner talent of the child but also in various curricular activities. Equal importance has been given on both Scholastic and Co-scholastic area. Through education we aims at making children capable to becoming responsible, productive and useful member of the society. However these is the beginning of our journey to give the originality, creativity and excellent education to enable them to compete your child/children in this super competitive world and I am sure with your soul support nothing will be impossible.*

*We are confident to lead your child to the zenith of success with the motto of the school "Knowledge and Brotherhood"*

*With best regard*

*Bajong Tisso*
