NAILING THAT BRIDAL GLOW

To achieve that perfect bridal glow without sunburn, consider Spray Aus Professional Tanning. Here are three essential tips for a flawless spray tan:

1. **Trial Run:** Schedule a test spray tan well before your wedding. Experiment with different solutions and communicate your desired look with your artist. This ensures the tan matches your skin tone and bridal vision.
2. **Preparation:** Exfoliate a day or two prior to your session for a smooth base. On the day, avoid lotions and wax or shave at least 24 hours in advance. Wear loose, dark clothing to prevent rubbing off the tan.
3. **Timing:** Book your spray tan 1-3 days before the wedding to allow the tan to develop and to wash off excess solution. Avoid scheduling multiple beauty treatments on the same day, and ensure the tan complements your dress fitting.

Follow these tips, and you'll shine with a radiant tan on your special day!
