CAPA Effectiveness Guide

Prepared by The Genic Group — ISO & Quality Product Solutions. This resource is designed to support prevention-driven operational systems, quality improvement, and sustainable manufacturing performance.

Corrective Action Best Practices

- Containment separated from corrective action
- Root causes validated with evidence
- Actions address system failures
- Effectiveness checks documented

Common CAPA Failures

- Symptom-only fixes
 - Lack of accountability
 - No verification of effectiveness
 - Incomplete root cause analysis
-

Effective systems should improve operations — not simply satisfy auditors.
