

# PAPC Bar Stock

## Polyamide Polyolefin and Cellulose

Polyamide Polyolefin and Cellulose (PAPC) Bar Stock includes ingredients that are FDA compliant. The PAPC Bar Stock surface created through a printing process that exhibits improved dimensional stability and strength with reduced warpage. Improved cutting performance has been observed with less waste and higher through put versus traditional cutting of polyolefin resins.

### Features & Benefits

- Excellent toughness
- Good compression strength
- Improved screw retention
- Traditional sterilization methods
- Non traditional plastic surface
- Can be coated

### Standard Color

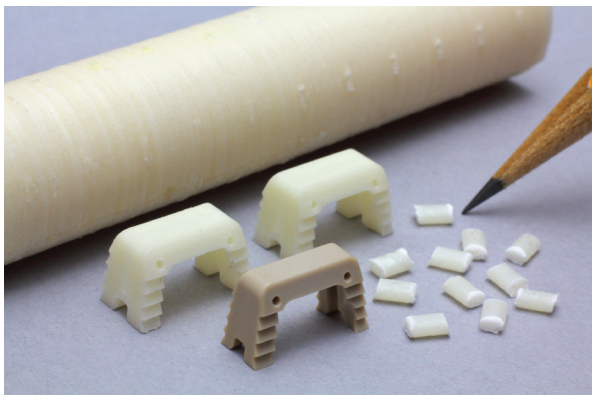

Natural

### Bar Stock Sizes

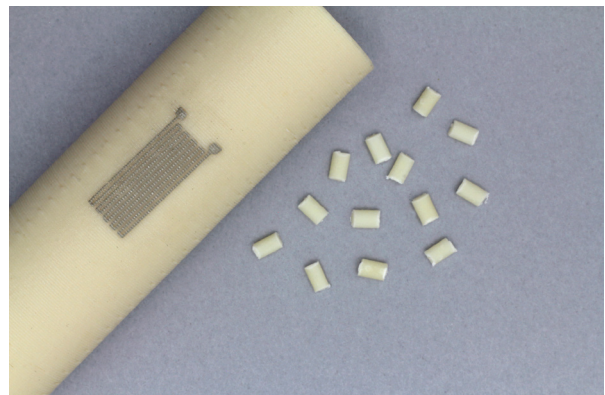

- 16 mm x 75 mm
- 20 mm x 100 mm
- 30 mm x 120 mm

### Full Box Packaging

- 12 bar stocks to a box
- 24 bar stocks to a box
- 32 bar stocks to a box

Machined part from PAPC Bar Stock.

Printed circuit on PAPC Bar Stock.
