REPUBLIC POWER LLC ANNOUNCES FORMATION AND ACQUISITION OF KOJOTE POWER PARTNERS, LLC

DALLAS – August 20, 2020 - Republic Power LLC (“Republic”) today announced its formation and acquisition of Kojote Power Partners, LLC (“Kojote”). Republic was formed in June of 2020 to build, own and operate microgrid power solutions specifically for the oil and gas industry. Republic provides tailored alternatives to traditional electrical service by implementing the latest in technologies and combinations of power generation including solar, natural gas turbine and reciprocating engines with the latest in battery technologies. These generation methods can provide the most responsive and reliable solutions for modern shale development. Kojote was formed in 2019 and has quickly built a reputation as a leader in providing alternative power solutions for oil and gas producers.

Based in Dallas, TX, Republic is led by its three founders, Brian W. Best, Randy M. Etheridge, and Gary E. Reed. Collectively, the team has a broad range of deep experience in oil and gas development, midstream development and power generation. The team has served in senior leadership positions with industry leading companies including Toshiba, Siemens, Acciona Energy, Caterpillar, Vaquero Midstream, J-W Energy Company, Halcon, Texas Oil and Gas, and KN Energy.

“The reliability of the electrical grid has reached critical importance for oil and gas producers, said Brian Best. With the electrification of modern shale development, providing access to reliable power that meets the sustainability needs as well as the speed of deployment is our focus. We are committed to providing the highest service bringing a new focus to a producer’s power needs.”

“I am very excited to be joining forces with Brian and Gary in advancing tailored microgrid solutions, said Randy Etheridge on the acquisition of Kojote. Brian and Gary have built their careers providing critical infrastructure for the development of oil and gas in all major basins.”

About Republic Power LLC

Based in Dallas and established in 2020, Republic Power provides reliable microgrid solutions implementing the latest in power technology in the oil and gas industry for producers and midstream customers. The company focuses on designing, building and operating microgrid power generation facilities for oil and gas development. Visit www.republicpower.com for more information.
