

Officially presents:

Symphonic Tam-Tams

The Percussion Store is proud to announce the release of our own Labmyc Symphonic Tam-Tams. We aim to provide these instruments for any percussionist especially in Malaysia. These tam-tams are not only aesthetically beautiful, but the sounds that these instruments produce match the beauty of these tam-tams.

The Percussion Store also aims to provide accessibility for all people and even percussionists to actually own a tam-tam of their own. These tam-tams are also suitable for meditative use such as soundbaths or sound healing activities, making them a universal instrument to own .

Labmyc Symphonic Tam-Tams

The “classic” tam-tams produce a conventional sound that is deep, with an almost clear pitch that can surround a room with its resonance. These tam-tams are heavier in weight, and can generate a very loud “wash” quality of sound.

45 cm Chao Gong

65 cm Chao Gong

70 cm Chao Gong

90 cm Chao Gong

Labmyc Symphonic Tam-Tams (Coloured)

The “coloured” tam-tams are thinner and lighter, which makes it easier to produce a “washy” sound. Being thinner and lighter, bowing these tam-tams produces very direct and projecting harmonics. The sound projection of these tam-tams are immediate especially when playing loud hits, or rolls.

50 cm Silver

50 cm Blue

70 cm Gold

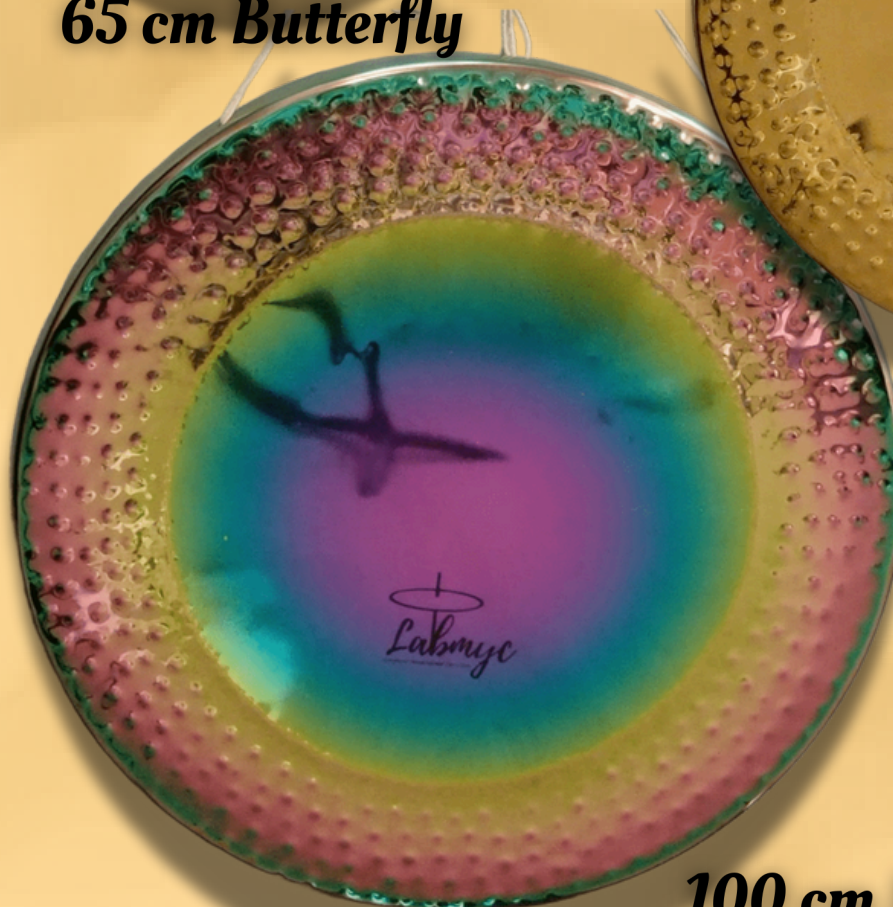

65 cm Butterfly

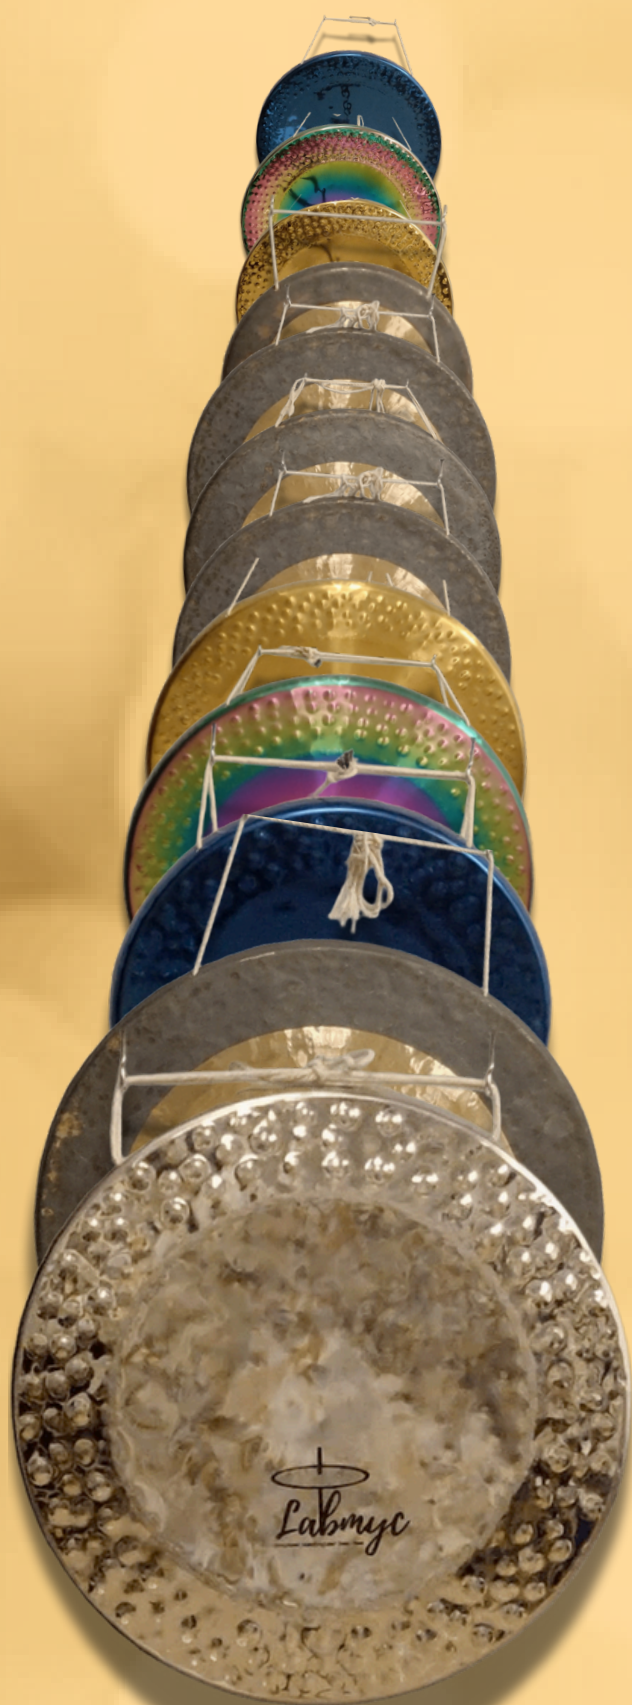

90 cm Gold

80 cm Blue

100 cm Butterfly
