

Officially presents:

SCREW-UP SERIES

PS Custom Timpani Mallets

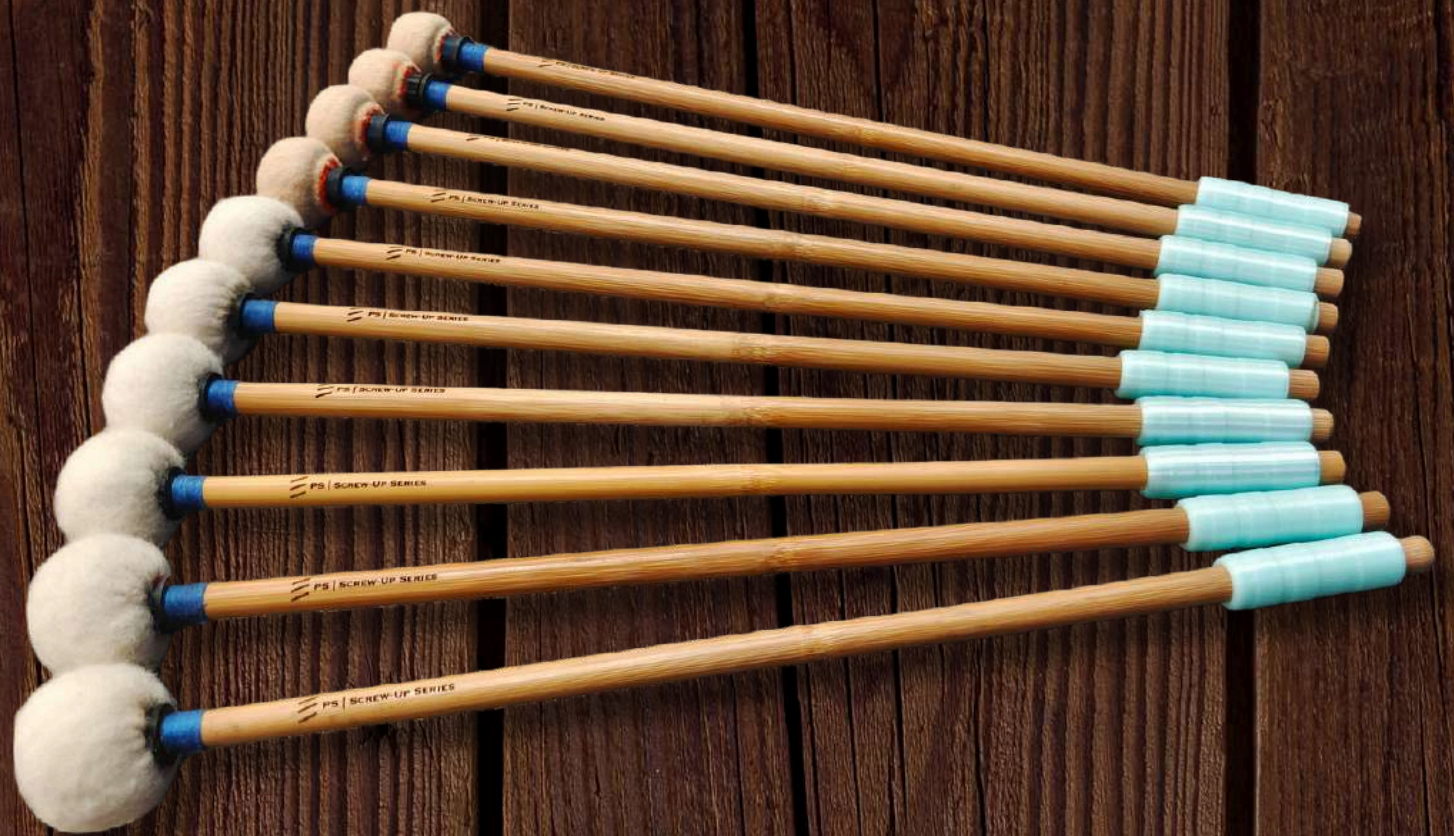

**SCREW-UP
SERIES**

The Percussion Store is pleased to introduce our exclusive line of timpani mallets: the **Screw-Up Series PS Custom Timpani Mallets**. Our objective is to provide a product that seamlessly combines convenience, functionality, and exceptional quality. True to its name, the Screw-Up Series features a design in which the mallet's head can be easily swapped through a simple twisting motion, allowing for quick tightening or loosening to change heads.

This innovation eliminates the need for timpanists to carry multiple mallets for different head types. With a single pair of mallets, it is possible to interchange heads as needed, offering increased convenience, especially for travel. Furthermore, the mallet's design allows for head changes to be made during a performance, with minimal noise and maximum efficiency.

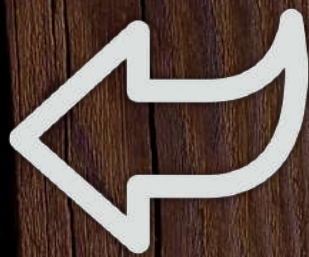

The mallets are crafted with premium quality German felt and fleece, along with silk made grips that provide an optimal balance between the front end and back end of each mallet. Each shaft is paired evenly as to ensure a consistent feel when using them.

The complete set will be paired along with a lightweight case to conveniently store the 5 pairs of heads in an organized manner. Additionally, two pairs of shafts will be part of the complete set package.

To tighten

To loosen

To change a head, simply twist the head anticlockwise to loosen and twist clockwise to tighten until fully secured.

Mallets are available in both bamboo and carbon fiber shafts, providing comfort and choice for timpanists.

Length of Shafts (without heads);

Bamboo — 14.5" (36.83 cm)

Carbon Fiber — 14.764" (37.5 cm)

· No. 1 (Ultra-Staccato)

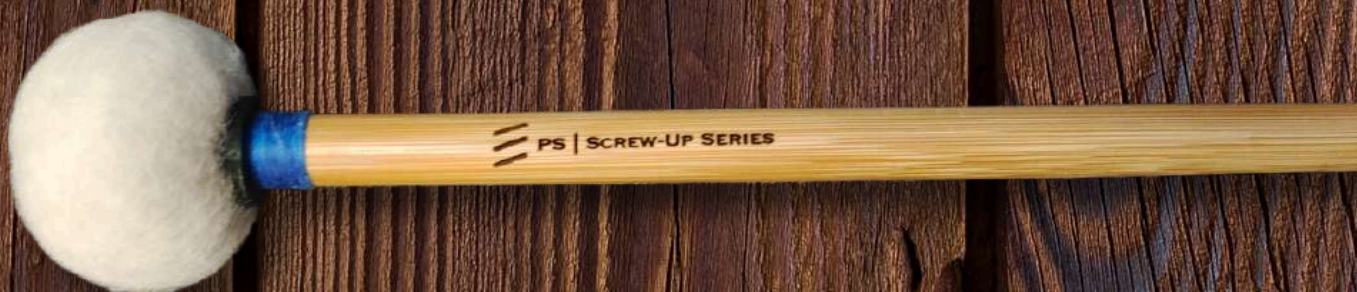

· No. 2 (Staccato)

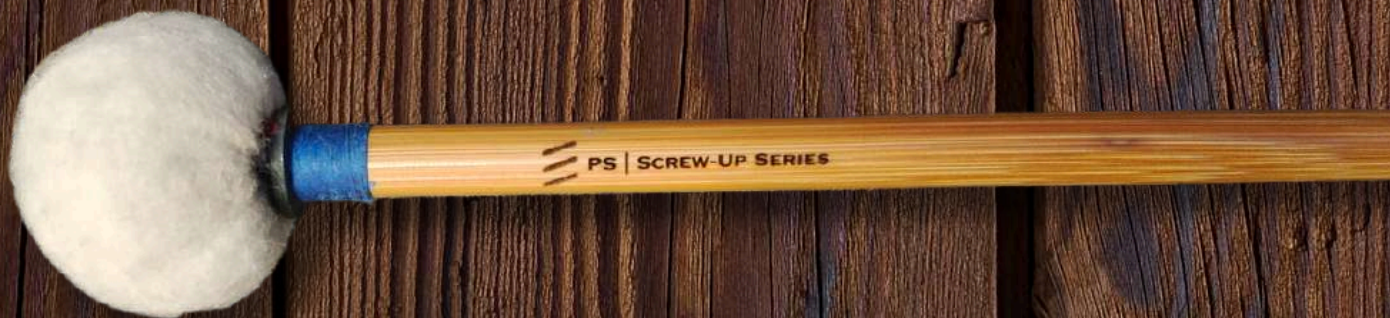

· No. 3 (Medium Hard)

· No. 4 (Medium)

· No. 5 (Soft)
