Symphonic Handcrafted Cymbal

PS CUSTOM CYMBALS

The Percussion Store is proud to present **Labmyc**, a locally owned brand and product designed to meet the needs of percussionists in Malaysia and beyond. **Labmyc** cymbals are crafted with a focus on affordability, without compromising the essential qualities that define a high-quality cymbal. As percussionists ourselves, we recognize the financial challenges, particularly for students, in acquiring quality cymbals.

To address this, we aim to provide an accessible option for percussionists to own cymbals that deliver excellent sound and performance at a reasonable price. Each cymbal is thoughtfully designed, with careful consideration given to its distinctive sound characteristics, visual appeal, and the feel of varying weights and sizes in the hands of the player.

The Symphonic **Labmyc** cymbals are specifically designed for orchestral settings. However, their versatility allows for integration into other performance environments, including multiple percussion repertoires, drum set performances, and even marching settings, depending on the musical requirements.

We offer a range of sizes and designs to produce distinct sound qualities. This catalog presents all available variations along with their corresponding sound characteristics.
