Description

With very low mileage, 25,102, this is a hard to find rare 1.5 Petrol Estate with stunning looks. One owner only although one previous owner showing on the log book, this is due to the main dealer who supplied the vehicle being on the log book originally - the vehicle was supplied to me with delivery mileage only. Amazing specification, including satellite navigation, heated seats, climate control, cruise control etc. Drive and performance are stunning, also comes with Sports mode, practicality of an estate but with a sports drive and performance. Excellent condition, never been in an accident or had any paint work done. This car has been cherished and looks amazing, attracts a lot of attention and positive comments.
