Peter Blackford says "its been fun to watch visitors to our garage at a loss to figure out what they were looking at. Even the national origin has been a challenging thing to guess. A hint? Design was inspired by the Chrysler Airflow of 1936, but the car was made several decades later". See it in person at or after (rain contingency) the next meeting on July 13. July 2024

Hello to all and hope everyone is well.

Our club has gone through obstacles lately that have forced us to a new location for club meetings. We are now meeting at Perkins restaurant off Pine Ridge Road. We meet the second Saturday of each month at noon. It is a good and safe place to drive your antique auto and show it off.!!

We have temporarily deleted going to choice restaurants during the summer months, as Perkins fills that need. However, we are in need of recommendations for a jolly "Welcome Back Party" in October. I have tried several locations but nothing yet. Any suggestions please call me.!!!!

Funny, not much in the way of organized show cars because of the heat, but in actuality, it has been hotter up north in a lot of areas. Pennsylvania was 92° today.

Any ideas of events we can attend as a group would be appreciated

Also keep in mind our club is in need of a dedicated volunteer to be a membership chairman !!

Happy Trails

Paul and Yvonne Rhoads

Ed Chesney

You may have heard by now that our good friend and longtime member Ed Chesney passed away May 20. Ed joined our club in 2002, and had been a generous, faithful, and helpful club member. He attended lots of events with his beautiful 1947 Lincoln convertible automobile.

I have contacted Donna Chesney, Ed's widow and am helping. Also, she needs to sell his Lincoln, so please let me know if you or someone you know may be interested in it (239-877-3228).

What this country needs is more unemployed politicians.

When I go out, I always drive myself....the urge to return home at any moment should never be underestimated.

Some people make me wonder, how do they fit all that stupid in their head.

At my age, when you get up in the morning you gotta sit on the edge of the bed and warm up like an old Buick before you get up.

Apparently, there are people out there that wash, dry, fold, and put away their clothes- all in one day. Yeah I know, I am confused too.

I'm going to need some of you guys to start getting wierder. I cannot keep pulling all the weight

LOUISIANA GOVERNOR SIGNS BILL TO PROTECT VEHICLE CHOICE INTO LAW

Louisiana, here's a win! Governor Jeff Landry signed into law a SAN-supported bill (H.B. 515) to ensure consumers' choice of vehicle power plants and fuel technologies by preventing a state agency from limiting access to internal combustion engines. This action will go into effect on August 1, 2024.

The SAN believes that Louisiana's residents, not the government, should decide what vehicles are best for them and their families. Keep in mind that the fight to protect internal combustion engines (ICE) across the country is far from over.

ILLINOIS REINTRODUCES INTERNAL COMBUSTION ENGINE BAN

Lawmakers in Illinois have introduced SAN-opposed legislation (H.B. 5824), which would adopt California's low and zero-emission motor vehicle standards and ban the sale of new gas- and diesel-powered motor vehicles starting in 2035. The SAN believes Californians should not decide what vehicles are best for Illinois.

Chatham Municipal Airport Open House

Submitted by Barbara Donald

Attached are photos I took at the Chatham Municipal Airport Open House on Saturday, June 8th. Roger and I took the red 1966 Corvette along with former club member Cam Koblisch with his 1961 Chevy. We were with the Cape Cod Classic Car Club. We also saw former club member, Tony Pearl and his latest Golden Retriever sitting in his antique roadster. The show featured planes, cars, municipal vehicles, food trucks and vendors. The Modal A Club and the Porsche Club were also represented. Beautiful day for a very well attended event
