

HEALTHCARE PROCUREMENT SOLUTIONS, INC

Many of our clients pay retail prices (or close to it) at Office Depot, McKesson, LabCorp, medical waste companies and other places. Instead of paying whatever these companies tell you the price is, why not let someone that caters **ONLY** to physician and medical businesses negotiate the prices for you. Using HPS doesn't cost you any money at all and they represent thousands of physicians, hospitals, clinics, non physician practitioners, and more - all over the country. If you send them a copy of an invoice you paid, for any of your medical or office supplies, they will compare apples-to-apples and give you the negotiated rates they have arranged on the same item, same quantity, same color, etc. so you can see how much you might save by letting them serve you. You have nothing to lose - and only money to gain. Call Spring Grissom at 731 267-6749 or send them an email to spring@healthcareprocurement.com You can mention my name or you don't have to - as I do not make a penny by connecting you with them. I'm only telling you this to help.
