Gavin's Revolting Redistricting is just G.R.E.E.D.

Some Facts. President Trump won 38% of the vote in California. Republicans have only 9 out of 52 congressional seats. That's only about 17% representation in an already heavily gerrymandered state. The state Democrat Party have a 21% advantage in congressional representation in contrast to the actual voter numbers. But this is not enough for the hoggish appetite of Greasy Gavin and the power mad Democrats. The Democrat Super Majority has made California a FAILING state with a reported deficit of 74 BILLION. An untenable amalgamation of the Democrat Party and Big Money Interests combined with Over-tax and over-spend with no accountability, D.E.I. Socialist Engineering Policies, ridiculous Green Regulation, Crime Wave Repression, Crime Stats Manipulation, 2nd Amendment Repression, Anti-Business Over Regulation, Court Packing and intentional Lawfare against the MINORITY Republican voter, has made this glorious state UNLIVABLE for its MINORITY Republican voters. This unholy alliance of swinish self interests has forced a record number of actual taxpayers and businesses to flee to the FREEDOM of RED States. And yet the piglets want more.

Gavin's Redistricting Equals Ending Democracy

How is Greasy Gavin's latest scheme going to disenfranchise California Republican voters more and destroy Democracy nationally? Greedy Gavin and his Party are going to use an already dysfunctional and corrupt state electoral system to GERRYMANDER away any shreds of a Legitimate Democratic process. By extra legal means with his deep state judges and apparatchiks the Democrats are going to pursue redistricting at a level rarely seen before. Gavin's ending democracy to save democracy. How is disenfranchising voters saving Democracy? Isn't this against the California Constitution? Why aren't elected Democrats and Green Independents speaking up? We thought they cared deeply about Civil Rights? Not for you, the Republican Voter. This is a VERY DANGEROUS PRECEDENT to set. Gavin and the Piglets may make this the catalyst to destruction.

Power Gobbling Gavins new ploy is nothing more than an attempt to position himself as a defender of democracy. He's hoping this will catapult him to Presidential front runner for the DEMONcrats and undisputed moral leader of liberal elites. He loves the smoke and mirrors of the political stage to showcase his heavily gelled pompadour and continue his rise to the top of the sty.
