

Hello, my name is MJ, and I'm emailing you on behalf of the Proctor Frostbyte Robotics program. We are hoping you would consider helping us and supporting our dreams. We are a small group of freshmen through seniors from Proctor High School who work together to build a robot from scratch and code it to do specific functions that we will use in various scrimmages and competitions! We try our best to make the greatest robot we can. Once we have a robot, we can compete at the regional level against over 120 teams from around the state area! We would love for you to consider helping with our dreams for the future of this program. Robotics isn't just about making a robot, we learn about programming, CAD (Computer-aided design), Fabrication, engineering, mechanical but most importantly at least to me, we learn about leadership and teamwork!

In order to continue our program we respectfully request you consider making a donation towards our Frostbyte Robotics Program. If you have any further questions please don't be afraid to contact us at (218) 260-6445 or via email at Clawrey@proctor.k12.mn.us. Feel free to reply to this email as well.

Thank you for your consideration!

Donation may be mailed to: Proctor Frostbyte Robotics Proctor High School Attn: Mr. Chad Lawrey 131 N 9th Ave Proctor, Mn 55810

Sincerely, MJ [Tweek]
