

Dear Possible Sponsor,

I am writing on behalf of the Proctor High School Robotics Team (Proctor FrostByte). We are looking for local businesses to sponsor our 2021 Robotics season. Your sponsorship will help to provide our team the much-needed equipment (such as; power-tools, desktop computers, 3D printers, and much more), materials for fabrication (including but not limited to; aluminum, steel, and wood), and the funds necessary to assist our team in our journey to a possible victory. With the help of any method of fundraising, our team will be better-off to embark upon this year's season.

We would greatly appreciate any donation you can make, as the provided funds would be put forth to repay our community through public acknowledgment; the businesses and individuals who donated will not be left unnoticed. Should you decide to be a sponsor for this year's season we will recognize your business throughout our season on our communications.

If you have any questions or need further information, please contact us at (218) 260-6445 or at clawrey@proctor.k12.mn.us. On behalf of the Proctor High School's FrostByte Robotics Team we thank you for your consideration.

If you do decide to become a sponsor of the Proctor FrostByte feel free to mail your donation to the 131 North Avenue, Proctor, MN 55810 in care of the proctor FrostByte.

Sincerely,

Jackson Janzig
