

Get ready for something **really big**

Yes, it's Ohio's tax-deferred retirement savings plan. It comes right out of your paycheck, so you won't miss it.

Want to know why it's so cool?

Most people dream of having a comfortable lifestyle, including after they stop working.

Start dreaming now.

For every pre-tax dollar you set aside for yourself, you could get \$3 to spend when you stop working.

Pretty nice, eh?

This illustration is a hypothetical compounding example that assumes biweekly contributions (for 30 years) at a 6% annual effective rate of return. Actual compounding for each \$1 contributed is \$2.80. The illustration includes rounding and shows the principle of time and compounding. It is not intended to predict or project the investment results of any specific investment. Investment returns are not guaranteed and will vary depending on investments and market experience. If fees, taxes and expenses were reflected, the hypothetical returns would be less.

Getting started is a simple choice.
