

# OHIO DEFERRED COMPENSATION

## Put Your Heart into Planning for the Future

It has been a tough couple of years. With the challenges of the recent past and present, it can be hard to look far into the future. But it is time to put your heart into investing in yourself so you can have the retirement you want with the ones you love.

Here in Ohio, we give it our all. If you recently lowered or suspended your contributions to your Ohio DC account, or if you took an emergency withdrawal, you did what you needed to do. We hope that 2022 can be the year you recommit to growing those contributions or replenishing your account.

And even if you continued contributing, you have probably had cause to think a lot about what it is you are saving for. Increasing your contributions can help you get closer to your goals.

Regardless of what has occurred these past few years, Ohio DC is here to help. We are fellow Ohioans, ready to provide you with expert advice, tools and user-friendly resources to secure your retirement and boost your financial wellness. Last year, we added a feature called Enrich, a one-stop destination for personal finance topics such as budgeting, banking, insurance, investing and debt management.

So put your heart into it! Embrace the chance to improve your financial wellness and build savings for the future you want. Log in at [Ohio457.org](https://Ohio457.org) today and increase your contributions. If you do not have an online account, you can create one by clicking on "Sign up for an online account" under the login box on our home page, or just give us a call.

*Investing involves market risk, including possible loss of principal.*
