Scan this QR code to download the app now Or check it out in the app stores Scan this QR code to download the app now Or check it out in the app stores IGN's Zelda: Tears of the Kingdom Interactive Map is now complete! Our experts have been adding armor locations, shrine locations, Korok Seed locations, Skyview Towers and Great Fairies and much more for weeks -- and now we're finished (until TOTK DLC is released!). Here are some helpful filters to aid you in your search.

Use the search bar: The locations will be filtered. Our experts recommend the Glider Armor Set , the Climber's Armor Set, and the Soldier's Armor Set. Another great update is the Paraglider Fabric Locations. See a complete list of the Paraglider Fabrics and how to get them. Paraglider fabrics can also be unlocked via Amiibo scans. Glide in style! Pro tip: You can filter the map to suit your needs. Too crowded? Hit the ALL MARKERS - HIDE button and select the categories you want to show. Your filters and of course the items you check off will be saved in the cloud. Is the TOTK map too crowded? Hit ALL MARKERS HIDE/SHOW to select your preferred categories. Previous Tears of the Kingdom Map Updates If you are playing Tears of the Kingdom, (we hope you are), you'll absolutely need this interactive map of Hyrule! The in-game map is helpful, (here's how to reveal it by finding all of the Skyview Towers), but if you want to set a destination, like those Towers - or Shrines, Great Fairies, or Korok Seeds - and just knock them out, we've got the locations for everything in the interactive "TOTK" map. The map of Central Hyrule holds more surprises than you'd think. We've found them all. Tears of the Kingdom Map (Central Hyrule) Tears of the Kingdom Map (Central Hyrule) On the Tears of the Kingdom Interactive Map page, you can: Filter by map marker Check off your progress as you go Store your checklist data online Once you are on the helpful Tears of the Kingdom Interactive Map page, you can filter by map marker type easily (eg. Koroks, Fairies, Shrines, Caves), but even better, you can check off your progress as you go to make sure you've gotten them all. We actually save that data for you, so when you come back, your precious Seeds stash is tracked and ready to pick up where you left off. In fact, we store your checked-off Shrines, Fairies, and Koroks in the cloud so if you switch to your phone from your laptop, we have you covered. And by the by, about those Shrines, we have many, many guides to the Shrine puzzles themselves including the step-by-step instructions for reaching them. That will beep when you're facing a nearby shrine kind of like a sonar for Shrines of Light. Beyond that, though, there are a few ways to narrow down your search. Search near villages and stables. There's always a shrine very close to a stable, and every village (and town and domain, etc.) will have a shrine in or near it. Look above lightroots. In the Depths, you'll visit lightroots to light up big portions of the map (and to heal any gloom damage you've incurred). Lightroots are always directly beneath a shrine — and their name is the shrine's name spelled backward (or vice versa). Explore from the sky at night. At night, visit a Skyview Tower and launch yourself into the air. The glowing green swirl above a shrine is a bit easier to spot in the dark. And remember: You don't have to complete a shrine to activate it as a fast travel point. Interacting with the glowing sigil out front unlocks the fast travel point (and makes the shrine icon on your map a mixture of yellow and blue), so you can always return later to claim your Light of Blessing.
