

TECH BULLETIN #3

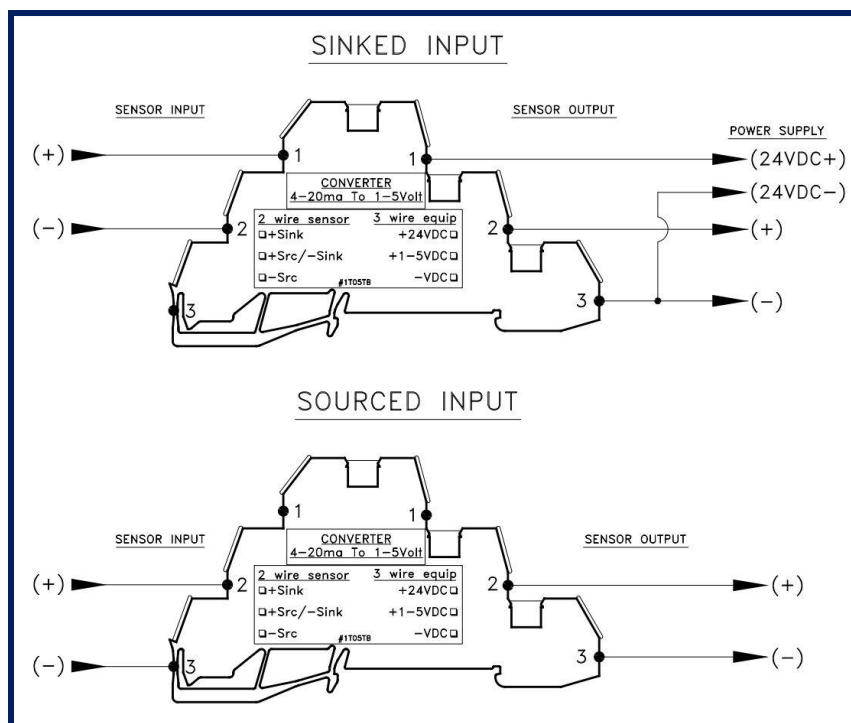

This converter add-on terminal block will convert the 4/20mA signal from a Sigma Controls Submersible Level Transmitter to a 1-5VDC control sigma output.

Compatible with all Sigma Controls Level Transmitters, Pressure Transmitters, Level Meters and Controllers.

WIRING DIAGRAM

SPECIFICATIONS

Power	24VDC
Input (1)	4/20mA
Output (1)	1-5 VDC
Mounting Style	DIN Mount
Dimensions	2" x .27" x 3.5"
Input Wire	14 AWG Max
Output Wire	14 AWG Max
