## Anchor Project Center FAMS Program

The Fathers And Mothers Scholarship (FAMS) program, is an educational program integrated with clinical substance use disorder therapy. The goal is to successfully rebuild the family structure that has been damaged by addiction issues.

The entire FAMS recovery program will be provided to the participants at no cost. Tuition, room and board housing, clinical services, and school supplies are all supplied by Anchor Project Center. This allows individuals to completely focus on school.

The average wage earned by our working participants is currently \$10.89 per hour. According to the U.S. Bureau of Labor Statistics, the median hourly wage paid by our programs is as follows:

Medical Coding \$21.75

Surgical Technician \$24.77

Welding \$21.25

Electrical Technician \$27.36

HVAC \$25.68

Anchor Project Center is collaborating with, among others, Bridge Valley Community and Technical College, and career centers at Carver, Garnet, and Ben Franklin.

FAMS is an economic empowerment program that transforms lives, allowing disadvantaged people to move from reliance to self-sufficiency.
