

The Creativity Revolution is Coming to Crick!

Crick's POP UP Community Arts Centre is arriving on Monday 28th May 2018

For one week only, Crick will have its very own fun, creative community arts centre at Crick Village Hall.

From Monday 28th May – Sunday June 3rd 2018, The Wheels on Debussy's **Crick Creates** will be opening a creative community arts hub. Its aims are to:

1. Promote art, music and theatre through interactive, inter-generational and exciting workshops and events.
2. Introduce local artists and makers to the community to teach their craft and promote their work.
3. Help local arts organisations reach new audiences.
4. Invite the local community into a creative hub at the heart of the village.
5. Regenerate our local economy.

Crick Creates is on a mission to show off Crick's rich artistic and creative community. It wants to prove that if you support your creative community you can bring vitality to a village and avoid the need to travel to towns and cities to seek creative experiences. The village hall will be a hub of activity with events and workshops. We have international "virtuoso of the arts" (The Times), Matthew Sharp, performing a cello and singing cabaret evening. We have BAFTA-nominated writer, Martin Riley hosting an evening of story-sharing followed by a family workshop based on *The Crick Strong Man*, Carl Dane. There will be children's sewing and knitting classes; *The Wizard of Oz - A Play in a Day* by Five Star Theatre; evening adult workshops by professional artists Liz Wells and Karen Wyeth; a live Ceilidh band; local best-selling kids author and Taekwondo Master, Mark Robson and lots more.

We aim to have a café running throughout the sessions as we want to make everyone's experience as comfortable, refreshing and sociable as possible.

People can find out more at facebook.com/CrickCreates or www.CrickCreates.com.

Crick Creates is the brain child of Crick resident Fiona Sharp. Fiona and her friend, Louise Knight, set up The Wheels on Debussy (www.TheWheelsonDebussy.com) two years ago which devises and presents concerts, trains musicians and commissions writers to make and tour exceptional, interactive and transformative work for children. www.thewheelsondebussy.com

Supported by Northamptonshire Community Foundation and Crick Parish Council, the arts hub is a chance to show how - by utilising our local community buildings and supporting local arts – we can create something exciting and uplifting for our village.
