INTRODUCTION

This directory provides a list of physicians, hospitals, skilled nursing facilities and other providers that are included in Alignment Health Plan's network. To get detailed information about your health care coverage, please see your Evidence of Coverage (EOC).

You will have to choose one of our network providers listed in this directory to be your **Primary Care Provider (PCP)**. There are several types of providers that may serve as your PCP, and these include: Family Practice, General Practice and Internal Medicine. Generally, you must get your health care services from your PCP. The term "PCP" will be used throughout this directory.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory; however, some services may require a referral. Your care is directed by your physician and they may not admit to all network hospitals or skilled nursing facilities, or they may not refer to all network providers. Always confirm the participation status of the physicians, facilities and providers before receiving services. If there are specific hospitals, skilled nursing facilities or other providers you would like to access, please call Alignment Health Plan's Member Services to determine your physician's network affiliation.

If you use non-plan providers, you may have to pay more.

There may be times when you get a bill from a non-plan provider for the full cost of medical care you received. If this happens, you should send us the bill along with any documentation of any payment you have made for consideration. Mail your request for payment

together with any bills and receipts to:

Alignment Health Plan
Attn: Member Services Department
1100 W. Town and Country Rd., Suite 300
Orange, CA 92868

If we decide that the medical care is not covered, or you did not follow all the rules, we will not pay for our share of the cost. Instead, we will send you a letter that explains the reasons why we are not sending the payment you have requested and your rights to appeal the decision.

You must use network providers except in an emergency, urgent care situations, out-of-area renal dialysis, or other services. A medical emergency can include severe pain, a bad injury, a sudden illness, or a medical condition that is quickly getting worse. When you have a medical emergency, you believe that your health is in serious danger. You may obtain emergency services from the closest available provider, and you may obtain urgently needed services from any qualified provider when out of the plan's service area or when network providers are unavailable. If you obtain routine care from out-of-network providers, neither Medicare nor Alignment Health Plan will be responsible for the costs.

With the exception of emergencies, it may cost more to get care from out-of-network providers in Platinum (HMO POS) 003. In this HMO Point of Service plan, you do not need to get prior authorization when you get care from non-network providers. However, before getting an out-of-network service, you may want to check with our plan to see if the services you are getting are covered by our plan and are medically necessary. For emergency care, including post stabilization care and out-of area dialysis, your out-of-pocket costs will be the same both in and out of-network. For cost-sharing information see your Evidence of Coverage (EOC).
