

Adopt-a-Class Mathematics, Science and STEM Support Application

The Adopt-a-Class Mathematics, Science and STEM Support Program is designed to provide resources to enrich instruction and facilitate classroom projects for all mathematics and science teachers. Funds are available to purchase both permanent and consumable resources. Use of STEM blends is encouraged but not required. This program is meant to provide enrichment materials for the established curriculum. Applications will be evaluated and supported based on enrichment value, cost and available funds, and should include Amazon or other vendor links.

Date _____ School _____ Grade/Special _____

Teacher(s) Using Materials _____

Number of Students Impacted _____

Category: Mathematics _____ Basic Science _____ STEM _____

Curriculum Objective _____

Description of Items Requested _____

Total estimated cost (calculated for quantity) _____

Expected Outcome _____
