GameSheet has set the standard for digital scoring technology. Widely used in Canada for the Ontario Hockey League as well as the Ontario Lacrosse Association hosting over 900 teams in one league GameSheet is recognized as best-in-class league management technology by some of the largest and most respected leagues/affiliates in the world. The system is intuitive and simple to use. See live results of games, individual stats of your players and teams through any tournaments you attend. Picture NCAA stats at a club level, viewable to coaches, players and parents at any time. CSL is happy to have invested in this program to help develop the sport and elevate club lacrosse for everyone to benefit from at our cost.

Allowing Player Authenticate to oversee and provide a digital credentialing option allowing us, a third party to verify the documents and approve eligibility eliminates the risk of “bending the rules”. This also gives the league and coaches a place to verify, via the site, that players are approved to compete in leagues, tournaments, and in certain age groups. Player Authenticate also gives parents an easy, safe, and secure way to submit and store their personal documents required for league credentialing.

Athletes Hospitality is a tech-enabled sports travel company that delivers comprehensive housing and logistical solutions for large-scale youth sports tournaments, along with collegiate and professional sports schedules.

***Stay to play events - hotels links already available for all 3 stages**
