

EVgle™

NO POWER? NO WORRIES.

MEET THE EVGLE: A FOLDABLE SOLAR AWNING FOR OFF-GRID EV CHARGING

KEY FEATURES

- ⏏ Foldable configuration for easy transport and assembly
- ⏏ EV charging & emergency curb side top up charging
- ⏏ Weather protection
- ⏏ Suits existing external car parks
- ⏏ Patent approved; design and trademark protected
- ⏏ Can be retro-fitted to existing concrete podium slabs
- ⏏ 10-year lease option for commercial applications including a service agreement for peace of mind*

SUSTAINABILITY

- ⏏ It's like planting a tree! The installation of the EVgle in shopping centre car parks eliminates the need for sunshade canopies that need to be replaced every 3 to 5 years, then disposed as land fill
- ⏏ Surplus energy produced can be used for micro grids
- ⏏ Carbon credits generated for renewable energy use
- ⏏ Reduced carbon footprint
- ⏏ 50-year structural steel warranty; 10-year manufacturer's warranty for solar panels
