

“Helping construction clients to successfully deliver their projects”

We are a built environment training and facilitation consultancy that specialises in running **project stakeholder collaborative workshops**.

We get involved at the critical path milestones of your programme to deliver tailored 'hands on' improvement events with your project teams.

Collaborative workshops help you to successfully deliver your project outcomes.

- ✓ On Time
- ✓ On Budget
- ✓ Great Quality
- ✓ Great Collaboration.

What we do to help you!

We provide a range of fully facilitated stakeholder collaborative workshops to improve project team performance and critical path programme deliverables.

Project stakeholder collaborative workshops.

- **Preconstruction period stakeholder coordination workshop** (RIBA stages 0 - 4)
- **Project launch stakeholder team building workshop**
- **LEAN collaborative planning + programming workshop**
- **Interim 'stand-back' review workshop**
- **Countdown to completion 'soft landing' workshop**
- **Lessons learnt review workshop.**

How we do it!

We build **tailored stakeholder collaborative workshops** that utilise proven tools and techniques that embed understanding, uptake, and improvements.

We work with you to select from a range (or develop) **Team focussed**, and **Task focussed** improvement activities to be specifically included into your workshop.
