1 Glossary

- 'ABD – Slave. Interestingly, Muslims use the same word to describe African people.
- ALLAH – Muslim god
- APOSTACY – Renouncing Islam. The penalty for apostasy in Islam is death. The penalty for criticising Islam is also death.
- MUHAMMAD – Allah's messenger
- BLACK STONE – Muslims kiss the Black Stone as it is supposedly black from absorbing sin. Muslims accuse Christians and Hindus of being Idolaters, but travel to the Kaaba and kiss a black rock. Isn't kissing a rock Idolatry? Actually, it is not one black rock but several, held in a corner of the Kaaba with a mixture of tree sap and other ingredients to make it smell nice. It was probably a meteorite that someone found lying in the sand. It is housed in a frame, which resembles a vagina, and Muslims stick their head into so they can kiss it.
- DHIMMI – A non-Muslim who is in servitude to Muslims
- HADITH – A Hadith is a narration by someone else, similar to the books in the Christian Bible, i.e. Gospel according to John. Some credible Hadiths are Sahih Al Bukhari; Sahih Muslim, Abu Dawud.
- HALAL – Permissible for Muslims
- HARAM – Forbidden for Muslims
- HIJRAH – Muslim migration to non-Muslim regions. Some say that the migrant crisis and Muslims fleeing to Western countries is Hijrah. The goal is to make the host country Muslim, following Muhammad's example in Medina.
- ISLAM – an Authoritarian ideology designed to keep Muhammad in power. It is not a race, and criticising Islam is not racist.
- JIZYA – A tax paid by non-Muslims to Muslims. This practice was prevalent in ISIS controlled territories. Some say that Muslims claiming welfare in Western countries is actually Muslims claiming the Jizya from the non-Muslim citizens of the country.
- KAABA – The house of Allah.
- KAFIR – A non-Muslim
- KORAN – The written word of Allah, verbatim. According to Muslims, the Koran is the word of Allah and cannot be changed.

-
- KORANIC ABROGATION – When a verse in the Koran contradicts another verse, then the verse written later supersedes the earlier written verse. The early verses in the Koran are mostly peaceful, the verses written later are about war and killing non-Muslims.
 - TAQIYYA – Muslims are permitted to lie in order to promote Islam, this is called Taqiyya. Any Muslim who states that Islam is a religion of peace is practicing Taqiyya. When challenged on Islam, some Muslims respond with personal attacks or claim persecution. One could consider this a form of Taqiyya.

2 Allah

Muslims believe that Allah is their god.

Allah was a pagan Meccan Moon god who had 3 daughters, Alat, Uzzah, and Manat.

Muhammad's father was named Abdullah, which means "Slave of Allah". This is "Slave of the pagan Meccan Moon god Allah".

The symbol for Islam is a moon, and Islamic countries have a moon on their flags.

Allah was just one of the gods that the Meccans worshipped at the Kaaba. They had a god for every day of the year. When Muhammad conquered Mecca, he destroyed the other gods and kept only Allah.

In an attempt to establish credibility, Muhammad claimed that Allah is the same god as the Christian and Jewish God, and that he was a prophet in the Abrahamic line. Christian and Jewish texts do not support this, and conflict with this assertion.

3 Muhammad

Muslims believe Muhammad is the holy perfect man of Islam. Ref. Koran 33.21.

Muhammad lived in Mecca and was an orphan raised by his relatives.

He worked for a trader, travelling with caravans. He married his wealthy boss Khadijah bint Khuwaylid who was older than he was.

Some say he was epileptic as he used to have fits, which is when he claimed to have his messages from Allah.

When he started getting his messages, he thought he was possessed and contemplated suicide. His wife convinced him not to.

He started preaching in Mecca, which was a tolerant secular society.

His preaching was mostly adopted from Christian, Jewish and Zoroastrian stories.

People used to make fun of him.

After 13 years of preaching, he had about 150 followers.

His friend was Abu-Bakr. He was wealthy.

Muhammad's wife Khadijah had died and he needed financial backing. He married Abu Bakr's 6 year old daughter, eventually consummating the marriage when she was 9 and he was in his 50's.

Muhammad claimed that one night he was taken to various levels of heavens and to Jerusalem on a flying donkey, which had a head that resembled a human. No one witnessed this, or ever witnessed a miracle from Muhammad. In the clip, "The Flying Horse Fantasy" by The Apostate Prophet, he notes the similarities of the story to a Zoroastrian story. In Ibn Ishaq/Hisham 265, Muhammad's wife Aisha stated that he never left his bed. Muslims are taught that he actually travelled there. The entire Islamic claim to Jerusalem is based on the claim of one man, who either had a dream or made up the story. This is why Muslims claim Jerusalem is a holy city in Islam.

After "travelling to Jerusalem on a flying donkey", the Meccans finally got tired of him and his antagonistic preaching and kicked him out. Then he went to the predominately-Jewish city of Medina. It was around this time that Muhammad had sex with 9-year-old Aisha. Before this, he used to masturbate between her thighs.

Muhammad went to the criminal outcasts in Medina who used to live in the mountains and they converted to Islam. With his growing army, he murdered or forced the conversion of all Jews in Medina, or took them as slaves or sex slaves. All this within 3 years of arriving. He beheaded more than 600 Jewish men in one day, taking their wives and daughters as sex slaves on the same night. These are the people who gave him refuge.

With his growing army, Muhammad forced conversion of surrounding villages following the same protocol, convert, kill or slavery.

He taught his followers that Muslim men had sexual rights over non-Muslim women, regardless of whether they were married. The practice is still followed with Muslim rape gangs targeting non-Muslim girls and women.

Muhammad would raid caravans to Mecca to steal their wealth. This came to a head at Badr where the Meccans were waiting for him. There he told his followers that anyone who was killed fighting for Islam would go straight to paradise, and at once, a young soldier got up, threw himself into battle, and was killed. This set the example for Jihad for the next 1400 years. Islam glorifies death.

At that time, Muhammad never had the power to conquer Mecca, so he struck a treaty with them. When he became more powerful, he broke the treaty and conquered Mecca. In Mecca, he then murdered all political challengers and anyone who ever made fun of him in the past. He also murdered his former scribe, Abdullah, who had left him in Medina because he realised that the Koran could not be the word of Allah as Muhammad approved of him changing the words of the verses to sound more poetic.

At one point, Muhammad visited his adopted son's house and seen his daughter in law, Zaynab bint Jahsh, in loose clothing. This woman was Muhammad's cousin. He forced his adopted son to divorce his wife so he could marry her. This paved the way for millions of Muslims to marry their relatives because; if it is good for your holy perfect prophet to marry your cousin, it is good for you, but it is not good for your genes.

He had 13 wives in total, 11 at one time. However, he stated that Muslim men could have up to 4 wives.

Muhammad continued on his bloody rampage, with more than 60 military campaigns including assassinations, in 9 years.

Tommy Robinson brilliantly examines his crimes in the short clip: Muhammad's Day in Court, Rebel Media.

He eventually died, being sick for several years as a result of being poisoned by his Jewish sex slave, Zaynab bint Al-Harith.

Muhammad used to say that he was a prophet, and if he was not, let God cut is Aorta.

At the time of his death, Muhammad could barely walk and was in so much pain he said it felt like his Aorta was being cut.

He was a man who craved money, sex and power and used the idea of a religion to manipulate people into doing what he wanted.

Neither Jesus nor Buddha behaved in such a manner.

4 Koran

The Koran is supposedly the written word of Allah verbatim and cannot be changed.

The Koran is a licence to kill, 9:5, rape, 4.24, and beat your wife, 4.34.

There are records of 37 versions of the Koran. Dr Jay Smith has accumulated 31 hard copy versions.

The Caliph Uthman burned copies of the Koran, which did not suit him.

The current Koran was compiled in Egypt in 1924. There is no evidence of any connection between today's Koran and a Koran written during Muhammad's time. See "The Classical Debates" between Dr Jay Smith and Shabir Aly.

How can it be the word of Allah verbatim if so many different versions exist?

The Koran started relatively peaceful, when Muhammad started his preaching in Mecca. It became violent when Muhammad was on his warpath in Medina. It was also used by Muhammad to justify his actions when challenged by his followers. i.e. when Muhammad wanted to do something he would get a "revelation" from Allah allowing him to do it, like when he wanted to keep having sex with his slave Mary the Coptic Christian, or when he wanted to marry his daughter in law.

The Koran contradicts itself throughout, which is why koranic abrogation is necessary to interpret it.

The latter written verses supersede the earlier written verses.

If Allah was so smart as to create the universe, why couldn't he write a book that does not contradict itself? That is because it was dictated by Muhammad to manipulate people.

The Koran says that Muhammad is Allah's messenger. Muhammad dictated the Koran. The only proof Muslims have that Muhammad is the Messenger of Allah is a book dictated by Muhammad.

The last chapter of the Koran is chapter 9, which is the commonly known as the war chapter. Jihadi's quote chapter 9. Chapter 9 supersedes all previous peaceful verses.

Funny Koran Verses – Allah the Comedian

Chapter 18:87 states that Dhul-Qarnayn, commonly believed to be Alexander the Great, reached a place where the sun sets and found it setting in a muddy pool. He found people there and punished them. Muslims like to say it is a metaphor, but it actually says he found people there and punished them so according to Allah the muddy pool where the sun sets actually exists. If Allah created the universe, surely he should know that the earth rotates and the sun is millions of kilometres away. The truth to this story is that someone would have asked Muhammad where the sun sets and he made up a story or recited a story he heard from someone else. The point is that Muhammad believed this as the Hadith Sunan Abu Dawd 3991 supports it, and if Muhammad were in communication with a god he would have known this was not true. Furthermore, Alexander the Great followed Greek polytheism, not Islam.

Chapter 19 is about Mary mother of Jesus. It says that Mary was the sister of Aaron who was the brother of Moses. Allah is saying that Mary mother of Jesus is the sister of Moses. Does Allah not know that Mary and Moses lived more than a thousand years apart? When challenged on this, Muhammad then said that they were not siblings, but kin. However, even this is not correct as Moses was from the tribe of Levi, and Mary was a descendant of David from the tribe of Judah. The truth to this passage is that Moses and Aaron did have a sister named Mary, but obviously, she was not the Mother of Jesus. Muhammad confused the two Marys, and then tried to bluff his way out of it when he was challenged on its accuracy.

The funniest Chapter is the one that was eaten by a Sheep after Muhammad's Death.

Pastor David Wood in *The Sheepgate Conspiracy* beautifully explains this. After Muhammad's death, whilst his funeral was being organised, a sheep came in and ate some chapters of the Koran. This is detailed in the Hadiths. How do we know what was in these chapters? This is also in the Hadiths. The chapter arose because a man was concerned about the possibility of his wife cheating on him when he was away. Muhammad got a revelation from Allah, which said that in order to avoid adultery, a man and woman must be kin. In order for them to be kin, the man must be breastfed by the woman 10 times. Allah later changed this to 5 times. Therefore, women then had to breast feed men if they were to be alone with them and they were not related. So what happens if a woman did not have a child as Aisha was without child? Simple, she sent the men to her sister or niece to be breastfed. Eventually the women got sick of breastfeeding adult men, and when Muhammad died from being poisoned by his sex slave, the women used the opportunity to enable a sheep to eat these chapters. The real question is why did Allah allow a sheep to eat his book? In addition, since Allah's word is eternal and Muslims know from the Hadiths what was in the chapters that were eaten, why aren't Muslims continuing the practice of women breast-feeding men to avoid adultery? Muslim women are breaking Allah's law by not breast-feeding adult men.

Muslims like to claim that the Koran is the same as the Old Testament. It is definitely not. The main theological difference between the two books is that the Bible details the Crucifixion of Jesus Christ and his Resurrection. The Koran claims that Jesus was not Crucified, and that Allah swapped the bodies as Allah is the great deceiver. This denies the Resurrection. In Christianity, the great deceiver is Satan, thus from the Christian perspective Allah is Satan.

5 Aisha

Aisha was the daughter of Abu Bakr and was 6 years old when Muhammad married her. When she was 9 years old Muhammad had sex with her. Before he had sex with her he used to take baths with her and "thigh" her.

Muslims state that paedophilia was common practice at the time. However if Muhammad was a holy perfect man as they claim, and paedophilia was common practice, Muhammad should have taught against the practice, not indulge in it.

By Muhammad's example, millions of adult men have had sex with little girls, permitted by their religion, which they believe is superior to any secular law.

6 Women

Muhammad had a particular contempt for women, stating that they had half the intelligence of men and that hell was full of women. By Muhammad's teachings, women in Islam became no more than objects for sex and breeding.

Hadith Sahih Muslim: 1:142
A lady asked: 'Why is it, Messenger of Allah, that women are in bulk in Hell?'
The Messenger replied: 'I have seen none lacking in common sense and failing in religion but (at the same time) robbing the wisdom of the wise, besides you.'
Upon this the woman remarked: **What is wrong with our common sense and with religion?** He (the Holy Prophet) observed: Your lack of common sense (can be well judged from the fact) that *the evidence of two women is equal to one man, that is a proof of the lack of common sense*, and you spend some nights (and days) in which you do not offer prayer and in the month of Ramadan (during the days) you do not observe fast, that is a failing in religion.

Wearing the hijab is written in the Koran, but not for reasons of modesty. Muhammad taught that Muslim men have sexual rights over non-Muslim women. Koran 33:59 states that Muslim women should wear the hijab so that Muslim men will recognise them. i.e. recognise them and not rape them.

The Koran instructs men how to beat their wives, 4:34, 38:44. Muhammad beat his wife Aisha, Sahih Bukhari 4:2127 and stated that no man is to be questioned as to why he beats his wife, Abu Dawud 2142.

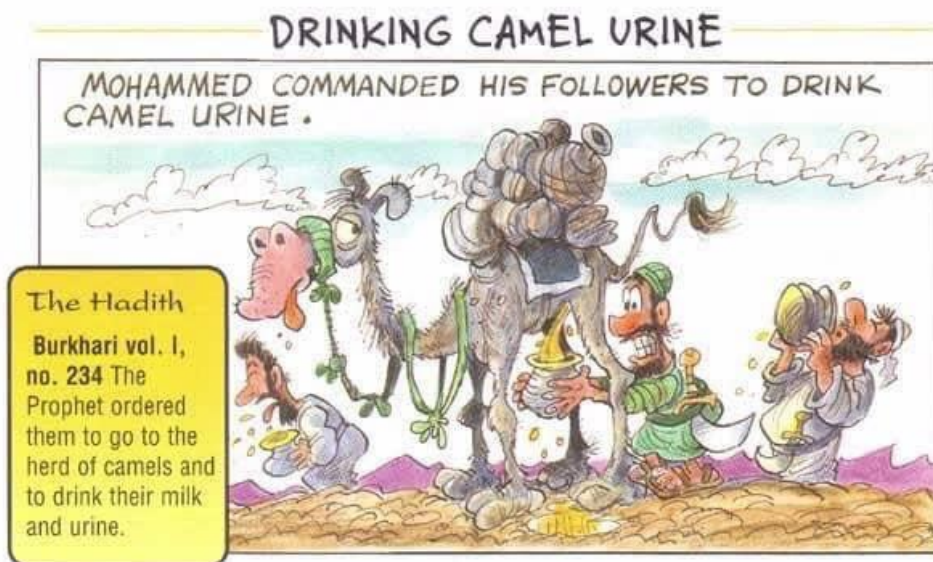

Aisha lamented the treatment of women in Sahih Bukhari 72:715; saying "I have not seen any woman suffering as much as the believing women".

7 Muhammad the Comedian, who hates Christians, Jews and Dogs

Camel Urine - Muhammad taught that drinking camel urine was a cure for sickness. Although he did not state which sickness it cured. By this rationale, camel urine cures all sickness. We can then deduce that since Muhammad said that camel urine is the cure for sickness, it is haram for a Muslim to see a doctor. All Muslims need is a camel at the local mosque where they can get fresh urine whenever they need it.

The World Health Organisation stated that drinking camel urine causes cytotoxicity and spreads Middle Eastern Respiratory Syndrome, MERS, and advised not to drink it. If Muhammad was in communication with a god, surely he should have known that camel urine is bad to drink, and that is not to mention what it must taste like.

However, Muslims continue the practice today.
