

Attempted Assassination of Trump

Trump must give a proper response to his attempted assassination. He must attack the cause and not the carnage. For the last several years many on the left and others have professed a “hatred” against Trump and things associated with him, including those American voters who support him.. The evil by these soothsayers against our republic, is in plain view. This hatred has no place in America or our heritage.

Just days before this attempt on Trump’s life, Biden gave a speech and proclaimed, “It’s time to put Trump in the Bullseye”. What the hell? From the leader of our Nation! Years of agitation of the American people to hate MAGA, hate people on the right, hate Trump, and now what? We cannot claim surprise that some actor heard the siren call and decided to be famous.

The Democrats’ media partners who push the DNC and White House propaganda showed how little they care about the horrific shooting at the Trump rally in Butler, PA. One reported there were popping noises and Trump fell to the floor– after a shooting was already established. The iconic picture of Trump, assisted by Secret Service, raising a triumphant hand under the U.S. flag was edited by the NY times to remove the flag. TDS (Trump Derangement Syndrome) is a real mental health condition.

There will be an investigation into how this could have happened. How did the Secret Service not flag a rooftop 150 yards away with a direct line of sight? How did rally goers see the man climb up to the roof, but the police and SS did not? Why did they not heed the people pointing to the assassin? And lastly, the SS sniper had a bead on the assassin for several seconds, but did not fire until the assassin did? The Secret Service actions once again will create the undercurrent of a plot. Just like the President Kennedy assassination.

The White House is scrambling to pull their Trump attack ads for this coming week. Guess they were calling Trump Hitler and a threat to democracy.

Attempted Assassination of Trump

There are several democrat operatives who have vocally called for the death of Donald Trump. Some are direct others sublime – such as make him a real martyr – relating to the support Trump receives during the lawfare attack on him.

Nothing can excuse that rhetoric ... nothing. Those that expound it, are evil.
