

Why Does *President Biden Hate the USA?

Asking why a U.S. President hates the USA seems stupid on the surface. It is not a thought that ever occurred to me about the eleven presidents that preceded him. Yes, Joe Biden is the twelfth president in my lifetime. Regardless of which party was sitting in the Oval Office, I never thought the president hated all Americans. They may not have liked some members of the other party, but Joe Biden even hates the members of his own party. Don't believe me? Check me out.

In the opening moments of his presidency Joe Biden cancelled the Keystone Pipeline. That caused 11,000 workers to lose their high wage jobs. It crashed the local economy in Montana, and dissed Canada, an ally. Some of these workers along with thousands of other workers, lost their jobs due to Biden's petty action. Many of those workers probably voted for Biden. He did not care. Yet he allowed President Putin to build his pipeline into Germany. Russians get the jobs and Putin gets much needed revenue to wage havoc on the USA. This decision will hurt Ukraine, another ally, and jeopardize Germany in the future as Putin can shut off the pipeline when he feels like it.

*President Biden opened the southern border of the US by reversing all the actions President Trump did to quell the influx of illegal aliens and the trafficking of drugs, guns and humans. In effect, Joe Biden gave the Mexican Cartel a revenue boost and a clear path to smuggling. Why did he do this if he does not hate America? He is spending \$350/day to put up illegal aliens (criminals) in hotels and fly them around the country. Meanwhile the families of active-duty military struggle to make ends meet and vets are homeless. Don't you think a serviceman's spouse could use \$350 / day to feed and clothe their children? They would be happy with an extra \$350/month. Does Biden care? Nope.

China is shipping Fentanyl to Mexico where it is then passed on to the United States. Another adversary of the US is getting rich and killing US citizens. Does Biden care? How could he? His open border policy is not only hurting the economy of the southern border and endangering the health and safety of US citizens, but it is helping the Chinese Government and the Mexican Cartels.

See the pattern yet? Help the enemies of our country at the expense of the citizens he took an oath to protect.

We saw on the world stage how *President Biden was devoid of devotion to the United States when he gave the Russian President a list of 16 sectors in our country that we deem important. He then asked the Russian bully not to hurt us. This was a pathetic act by a weak statesman. I am sure that the list was in the hands of many terrorists in less than a day. Did Putin stop laughing long enough to ask is the rest of the country fair game or did he go eeny-meeny-miny-mo, which target has to go? See, there are US citizens of all political persuasions that the Biden wimp threw to the ground in an effort to make nice to Russia. Could this be Russian collusion? I bet President Zelenskiy of Ukraine thinks so.

How about the devastation that BLM/antifa did on major cities across the United States? Private Businesses were destroyed to the tune of a billion-plus dollars and Joe Biden did not care enough to speak out against the terrorists. Those businesses and properties were owned by people of all political parties, races and creeds. *VP Harris campaigned to raise bail money to aid the terrorists. Did Biden care? No, she was his running mate. This is another instance where Biden sides with criminals against the citizenry.

Lastly *President Biden is against fair and honest elections. Don't believe me? If he was for honest and secure elections he would speak out and support the election audits that are ongoing. What does he have to lose? (Stop laughing.) Asking someone to show proof of identity to vote is not a big deal. People have to show ID when going to the ER, the bank or sports event to pick up Will-Call tickets. If *President Biden would support at least voter ID, it would put an end to the spurious assault on the states by Congress to take away their roles in the election process. Seventy percent of those polled favor Voter ID. (70%!) That means members of all political parties, races and ethnicities favor Voter ID. Nevertheless, Biden doesn't care; he hates the USA.
