Why People Are Moving to Las Vegas

Las Vegas isn’t just the Strip– it’s a growing metro of over 2.3 million residents, zero state income tax, affordable luxury, and year-round sunshine. Compared to cities like Los Angeles or San Francisco, you’ll often get double the home for half the price.

- Downtown / Arts District– Walkable, creative, near nightlife. High-rises like Juhl, The Ogden, and Soho Lofts are popular for professionals and investors.

- Henderson– Great for families, newer homes, and mountain views.
- The Strip & CityCenter– For those wanting luxury condos and hotel-branded residences.
