Corporate Overview

Trevia Consulting brings over 25 combined years of dedicated, professional experience with a focus on project/program management, planning, operations and technical writing. Experience in all facets of Joint Capabilities Integration and Development System (JCIDS), and Planning, Programming, and Budgeting Execution (PPBE), as well as optimizing the management of cost, schedule and performance.

Our Experience

- ✓ **EY/DoT - Key Achievement.** Fostered key relationships with sub-contracting stakeholders. Managed a \$2.5M federal IDIQ contract, three federal technical projects valued at \$1M, and 10 \$5M technical contacts.
- ✓ **AFS/Army - Key Achievement.** Change management: Sole development of a requirements automation process responsible for reducing touch-labor from 3 FTE, down to approximately 1.25 FTE, saving the contract company and government client over \$200K on an annual basis.
- ✓ **BUMED - Key Achievement.** Solely authoring the training and policy document giving life to the Naval Bureau of Medicine and Surgery Chemical, Biological, Radiological, and Nuclear (CBRN) Medical Exercise Project, supporting over 10,000 military reserve service members, to change the way the military trains its medical staff to support the warfighter on deployment.
- ✓ **BGS/DHS -** Engaged in extensive financial analysis, serving as the foundation for transformational change across a \$200M portfolio to meet the mission and needs of the organization.
- ✓ **USN/Pentagon –** Provided Joint Capabilities Integration and Development System (JCIDS), and Planning, Programming, and Budgeting Execution (PPBE) support for an \$8.5B Major Defense Acquisition Program (MDAP), optimizing cost, schedule and performance supporting operational forces. Supported development of the \$62M Tactical Data Dissemination Initiative (TDDI) and managed Technology Transition Agreements (\$62M) establishing foundation for future Naval capabilities.
