

Recon Tier - Essential Monitoring

Who It's For:

Creators who need foundational monitoring of their most critical accounts to detect early warning signs of breaches or attacks.

Included Monitoring:

- Email Account:
 - Dark web breach scanning
 - Login location monitoring
 - Password security checks
- One Social Media Account (e.g., Instagram, Facebook, OnlyFans, etc.):
 - Impersonation scan (fake accounts)
 - Privacy setting audit
 - Login attempt alerts review

Deliverables:

- Monthly security scan report
- Immediate notification of breaches or suspicious activities
- Basic recovery support if account compromise is detected

Goal:

Monitor two accounts total: one email account plus one social media account of the client's choice, ensuring vigilant coverage of their most critical digital assets.
