This game was made by Emilio Salvatore in 1983 and requires the Neapolitan cards and the 10 picture tables. One player turns the cards and all players mark them on the tables. If you like you can set a monetary fee for each table which is shared in the 5 pots (Centre, Poker, Corners, Diamond & Lines) as a winning prize. The winning scores are marked on the tables and are shown individually on the pictures below. Each winner collects the prize.
