RECIPIENT

Dear Mr./Mrs.,

My name is Jeff Hales, founder of **MNS Investing LLC**, a Michigan based equities trading firm specializing in momentum driven intraday strategies. I am seeking \$50,000–\$100,000 in structured capital to support the next phase of growth and transition from validated demo performance to a fully capitalized live operation.

Our edge lies in speed, structure, and disciplined risk management, identifying and executing on high-volatility, low-float equities through a system refined over years of testing and market experience. The strategy has consistently demonstrated strong daily returns in a simulated environment and is now positioned for real growth with the right capital and infrastructure support.

Included in this submission:

- **Capital Proposal:** Detailed breakdown of investment structure, use of funds, and capital deployment strategy.
- **Performance Roadmap:** Forward-looking projections illustrating fund growth potential under disciplined, risk-controlled trading.
- **Company Profile:** Overview of MNS Investing's mission, governance, and long-term scalability vision.

I welcome the opportunity to connect with you or your team to explore potential alignment. Please let me know if you'd prefer to review the materials first or schedule a brief introductory call.

You can also learn more at <https://mnsinvesting.com>.

Thank you for your time and consideration.

Sincerely,

Jeff Hales
