Guest Check Options

STANDARD POUR ESPRESSO & WINE BAR

Pre-Paid Tab

Customize a drink menu that meets minimum requirements which allow your guests to order up to the pre-paid amount. \$500 minimum applies. Once the pre-paid tab is exhausted, there are a few different options which we'll finalize with you prior to the event:

1. Continue allowing guests to order drinks under a general party tab, or
2. Offer a selection of beer and wine to your guests under a general tab, and have them open personal tabs for cocktails, or
3. Have your guests open tabs for all additional beverages

Cash Bar / Personal Tabs

Your guests order from our regular drink menu and pay tabs separately. At the end of the event, tabs will be added up to calculate total spend. A minimum beverage expenditure of \$500 is required for exclusive use of a cash bar and is only available for parties of 25 guests or less

General Party Tab

Your guests order from your selected package menu or our regular drink menu and all orders are added to one centralized tab. Customized drink restrictions can be made upon request.

If you would like specific products to make your event extra special, arrangements can be made with our bar manager for custom wine / beer / alcohol orders. Custom product orders will count towards tab minimum and must be paid in advance upon order.

In the event that the total minimum spend is not met, the secured credit card will be debited/charged for any outstanding minimum guarantee charges, plus 20% service fee.
