

THE BEST OF ALL WORLDS COMPLETE EQUINE ALIGNMENT CLINIC

Two skilled professionals, Equine Chiropractor Dr. Eino Ketola and Stacey Currie of Soaring Horse Holistic Equine Therapy, have come together to offer horses the ultimate musculoskeletal realignment package.

Organized as a two-day clinic-style event, Stacey Currie, certified equine massage therapist, will begin the process with a thorough massage session for your horse. Contracted muscles throughout the body will be released to prepare your horse for a long-lasting chiropractic adjustment. Dr. Ketola will follow up the next day with chiropractic treatment. In some cases, massage and chiropractic can be done on the same day. Dr. Ketola and Soaring Horse Holistic Equine Therapy have been working together for years with overwhelmingly positive results and numerous happy clients. Offering our services in a combined package gives horses the opportunity to experience the full range of benefits of complete musculoskeletal realignment.
