PURPOSE AND SCOPE OF POLICY

This policy sets out:

- How players are selected into the “Norfolk County Player Development Program” at U15 and U13. This squad is part of the Saracens Mavericks Pathway, which is set out in diagrammatic form in Appendix 2.
- How players are identified for varying stages of the Pathway.

Appendix 1 contains the Glossary of Defined Terms. Those Terms will be applied throughout this document.

1. PERFORMANCE MISSION

- 1.1 The “Norfolk County Player Development Program” aspires to become a major feeder into the Saracens Mavericks Squads. To achieve this goal, we must develop more national standard players who can function both individually and as a leading team. This aspiration provides the beacon to guide all decision making when selecting, including the management of the selection and development of players within the Academy Programmes.
- 1.2 It is the aim for Saracens Mavericks U15 Squad to have a podium finish at the School Games or EN (England Netball Under 15 Competition).

2. SELECTION PRINCIPLES

- 2.1 The “Norfolk County Player Development Program” Selection Policy employs an open, transparent and equitable process that gives all players a fair chance to challenge for selection.

- 2.2 Selection will be based on merit and the need to achieve the agreed objectives of the “Norfolk County Player Development Program”.
- 2.3 No player has the right or expectation to on-going selection, at any time.
- 2.4 The Selection Panel, as defined in Appendix 4, has the right to determine, at its sole discretion, when it will reselect players into their Programmes (in the light of external circumstance).
- 2.5 Players will be subject to deselection if they do not maintain the required standards of the programme and all other relevant “Norfolk County Player Development Squad” policies and regulations.
- 2.6 The County Player Development Lead has the right to invite players from outside the Academy Programmes, to be observed and considered by the Selection Panel for inclusion in the Academy Programme. This will be based upon Selection Criteria set out in Appendix 3.
- 2.7 Acknowledgement is made that in selecting for a team sport, regard will be made to the combinations of Players in the Squad/Academy, the balance of the Squad and the ability of Players to play in more than one position, alongside the player’s individual skill level.

3. OBJECTIVES

- 3.1 To select players capable of being able to develop and a) have an impact on the “Norfolk County Player Development Program” development and, b) have capacity to be coached with the view to moving up the pathway.

Appendix 5: Hosting an Event

Norfolk County Netball will be following the guidance below, as outlined by Saracens Mavericks.

Guidelines: A Screening Event

Organisation of the Event

- The organisation of the event is largely down to the individual county and has to work within the constraints that each has, whether that be facility, manpower or timings. However, it is important that the following are taken into consideration:
 - a) Under 15 and Under 13 Academy Screening Events should be run as two separate events.
 - b) The number of players that attend the event should be dictated by the number of courts and good quality performance identifiers available.
 - c) An approximate ratio of 1 identifier: 8 players.
 - d) The following key components need to be included, ball handling, movements skills, invasion games and match play.
 - e) At Under 13 Academy level this should be split approximately: 60% games sense, Movement and ball Handling and 40% Netball Match Play.
 - f) At Under U15 Academy level this should be split approximately: 40% game sense, Movement and Ball Handling Skills & 60%. Netball Match Play.
- Ideally all of the above components would be delivered in one day, however if this is not possible, they could be split over a series of evenings. i.e. 2 x 3hour sessions or 3 x2hour sessions.
- Ensure that the date/s of the event are released as soon as possible to ensure all schools and clubs are aware and therefore all nominated players are able to attend, bearing in mind school holidays.
- The appointed Lead County Selector should ensure that coaches are available to lead Warm Up and Cool Down and deliver all the games, practices and match play. The coaches should be separate from the Performance Identifiers at the Screening event.

Performance Identifiers

Organisation of the event is led by the Lead County Selector.

- Selectors should be appointed based on the knowledge and understanding when identifying potential performance players.
- It is important to have an approximate ratio of 1 identifier:8 players.
- It is important to source the Performance Identifiers from a range of clubs and other counties to ensure the decisions are as impartial as possible.
- The Lead County Selector is responsible for appointing the Performance Identifiers for the event as well as chairing the group. It is their responsibility to arrange a meeting prior to the screening event, as well as organising the identifiers during the event. The focus for the Under 15 and Under 13 Academy Event is to identify Circle Shooters, Mid Court attack, Mid Court Defence and Circle Defence.
- Key points for the meeting by the Lead County Selector are:
 - a) Organise Performance Identifiers according to courts, positions or both.
 - b) Performance Identifiers are aware of collecting and recording evidence on both Ball Handling, Movement Skills ,Invasion games and Match play.
 - c) Made aware of the appropriate behaviours selectors should display i.e. neutrality, confidentiality etc.
 - d) Arrange how the final selection procedure will be carried out.
 - e) Remind them of key criteria for selection.
 - f) Ensure when having discussions and asking for input regarding selection decisions, that the starting point is rotated around the table and that you do not always start in the same place.

- g) Ensure declaration of interests are made and ensure all non-decision makers are kept away from the court.
- h) County Lead Selector to make the performance identifiers aware of the clear focus of the event i.e equal number across all court areas.
- i) Need to consider the standard i.e not always select a full quota of players.
- j) Evidence from the Ball Handling, Movements Skills, Invasion Games, and Match Play should be evidenced and both areas considered when selection decisions are made.

Selection behaviour

The behaviour of the Performance Identifiers at a screening event is crucial in ensuring the event runs smoothly in a professional manner, as well as ensuring the correct selection decisions are made on the day.

A number of potential pitfalls that Performance Identifiers may encounter have been identified as the following:

- **Logical Error:** derives from a mistaken belief that particular abilities logically go together, e.g. a player who is overweight is slow.
- **Leniency Error:** Stems from a tendency to avoid giving below-average performers low ratings. Everybody wants to be a 'nice person'.
- **Central Tendency Error:** this is a tendency to minimise differences among players. Players below average are given higher ratings than they deserve and players above average receive lower ratings than they deserve.
- **Halo Effect:** results from a tendency to allow previous judgements (positive and negative) to influence present assessments.

Parents / Carers

- An appointed person should speak to parents/carers separately at the beginning of the day, possibly when the players are warming up.
- Explain the purpose of the screening event.
- Explain the organisation of the day.
- Explain how the players will receive the outcome of the screening event.
- Explain if feedback is going to be given and in what way.
- Ensure they are aware that they cannot enter the court area.

Feedback

- At the County Academy Under 15 and Under 13 Screening events, the County and Performance Identifiers should not feel obliged to provide feedback to all those players who have been unsuccessful. The number of players is sometimes too large for volunteers to take this task on.
- However, if it is agreed that feedback will be given then please make sure that the process is made clear to all players and parents at the beginning to prevent any issues.
