## 75TH ANNIVERSARY EDITION

### EDITOR REFLECTIONS

Bro. Damon K. Blythe - Associate Editor

From November 4-6, 2022, Lambda Epsilon Chapter of Omega Psi Phi Fraternity Inc., celebrated its 75th anniversary. The brothers of Lambda Epsilon (LE), 42nd Grand Basileus (42GB) Ricky Lewis and an array of other Omega brothers, came from far and near to partake in this LEgendarY & commemorative occasion. Beginning the morning of Friday, November 4th, multiple events were facilitated via the anniversary planning committee. All in all, it was a joyous occasion of recognitions, reflections and fellowship for all attendees.

Included in this 75th anniversary edition ALEF newsletter, are event articles, Lamplight Star Alumnus #4, commemorative photos, an interview with 42GB Lewis, the Undergraduate Spotlight and finally, announcements.

### A VISION FOR TU: THE HALLOWED GROUNDS OF UNCLE BOOKER'S SCHOOL

Bro. George D. Taylor, EdD - Editor

Born in Tallahassee, FL, Bro. Ricky Lewis moved to Los Angeles at the age of thirteen (13.) He attended public middle and high schools in the Los Angeles Unified School District. Upon graduating high school, Bro. Lewis enrolled in and graduated from the University of the Pacific in Stockton, Ca. While there, he joined Tau Alpha Alpha chapter of Omega Psi Phi Fraternity, Inc. Since then, Bro. Lewis has worked assiduously as a dedicated member and officer at the chapter, district and international levels of the fraternity. As such, at the Eighty third (83rd) Grand Conclave in Charlotte, North Carolina, Bro. Lewis was unanimously elected as the 42nd Grand Basileus of our illustrious organization. After being elected Grand Basileus, Bro. Lewis was asked to be the keynote speaker at the 75th banquet

## A VISION FOR TU: CONTINUED

of Lambda Epsilon chapter. Bro. Grand Lewis graciously accepted.

Upon his arrival to Tuskegee on the morning of November 4th, Bro. Grand Lewis joined other undergraduate & graduate Omega brothers in mentoring the largest group of Black male high school students in Macon County at Booker T. Washington high school.

While visiting campus, Bro. Grand Lewis was given a tour of the 5000 acre land mass and historic sites of TU. He and his welcoming team visited the gravesites of both university founding president Booker T. Washington and world renowned scientist George Washington Carver.

During his banquet address, Bro. Grand Lewis made a telling statement about some of his observations of TU. Situated on the 5000 hallowed acres acquired via BTW and associates, Bro. Grand said he could envision an elementary, a middle and high school, two hotels with plenty free parking and maybe even an auto manufacturing plant such as Toyota, Honda, Ford or Mercedes Benz. If properly nurtured and utilized, the land mass could be used to encourage industry to partner with TU for innovative progress.

After returning back to LA, Bro. Grand Lewis was interviewed by yours truly. Please find the interview below.

**Bro. Taylor:** Was this your 1st TU campus visit?

**Bro. Grand:** No. I passed through the campus once before; however, this was the visit where I had the opportunity to see the campus. Years ago, I stopped through the campus in route to Pensacola, Fl., my birth home. I was coming from the 67th Grand Conclave held in Atlanta, Ga during the summer of 1992.

**Bro. Taylor:** What was your impression of the campus?

**Bro. Grand:** It was sensory overload. I saw the "settledness," of the campus. I visited with the intention of being the keynote speaker for the 75th chapter anniversary banquet of LE. What I experienced was the full compliment of the homecoming celebration, parade and football game. I sat in the visitor's booth, met the university president, walked through

## A VISION FOR TU: CONTINUED

historic buildings, talked to students and fellowshiped with my brethren at the tailgate inside the stadium. There were a lot of goodies at one time. That was a first for me.

**Bro. Taylor:** Following your visit, was there anything about your visit that you reflected on during your flight back to LA?

**Bro. Grand:** I thought about the grave site of BTW and the rich history of TU and its alumni. The majesty of homecoming, the game, the parade, the kind people, richness and hallowed grounds of Uncle Booker's School. I also recounted sitting on "The Rock," and hearing countless stories told via various lines that have crossed at LE. I definitely plan to visit again to enjoy more of the rich tradition and hospitality of LE and TU.

**Bro. Taylor:** During your opening remarks at the banquet, you told guests that your parents were originally from Alabama. Please expound.

**Bro. Grand:** My mother, Ethel Lee, was born in Castleberry, Al. My dad, Harvey Lee, was born in Union Town, AL. My father left the army and moved to Pensacola. There, he had a 36 year career and retired from the Pensacola Navy Base. My mother moved to Pensacola for a better opportunity and better quality of life. Together, they had 7 children and were both disciplinarians.

**Bro. Taylor:** What great lessons did you learn from your father that may have influenced your role as a father, family man and most assuredly as the international leader of the over 30k college educated men of Omega Psi Phi Fraternity, Inc.

**Bro. Grand:** My dad taught me about discipline, being a man of my word and doing what you say you are going to. He was dedicated to the success of his children and made many sacrifices for us. As the leader of Omega men, I exhibit the traits of service & sacrifice daily.

## ALEF HOSTS CAREER SYMPOSIUM

Bro. Eien Williams (8 LE 2011) ALEF Board M-A-L

On November 4, 2022, ALEF hosted a Career Symposium. Current LE Undergraduates, alumni LE brothers, Iota Omega brothers and 42nd Grand Basileus Ricky Lewis, met up at Booker T. Washington (BTW) high school in Tuskegee, AL, to mentor over 200 male students of Macon County, AL. Students from BTW, Notasulga high school & Tuskegee Institute middle school, were introduced to various career paths and given key insight on how to pursue said paths.

Organized by Bro. AJ Nelson (Fall '00 LE,) who serves as the Athletic Director and Interim Student Services Coordinator for Macon County schools(MCS,) all currently enrolled middle and high school males of MCS, were in attendance. The symposium began with brothers introducing themselves and giving a brief professional background. Next, the students were broken into small groups & participated in sessions with the following topics: STEM, military, voter education, entrepreneurship and education. Students spent 10-15 minutes per session engaging with brothers and were given valuable information for future career consideration. As students transitioned to the breakout sessions, the ALEF brotherhood led a standing ovation for the BTW football team while they departed the event early to go compete in the Alabama state 4A playoffs later that evening. The symposium concluded with remarks from Grand Basileus Lewis. He spoke on the importance of staying engaged and focused in school & how doing so, will make one a better professional regardless the career.

7 AE Spr. 80

Dr. Ronald S. Rochon became the University of Southern Indiana's fourth president in July 2018, after eight years serving USI as provost.

In his first four years as president, he successfully secured over \$250 million in state funding for capital projects and operations from his first two biennial budget presentations to the Indiana Legislature. He is currently seeking an additional \$195 million for USI during this current budget session. Also, during this time period the university has experienced increased growth in the Indiana Commission for Higher Education's performance funding metrics of overall degree completion, at-risk degree completion, STEM degree completion, student persistence, and on-time graduation.

Under his leadership, the University has implemented its third Strategic Plan: Accelerating Impact – which includes goals for improving student success, fostering impactful engagement, elevating the visibility and reputation of the university, and strengthening its financial viability, all of which he plans to achieve through collaborative community, regional, state, national, and global initiatives. In 2021, his leadership attracted the attention of an NCAA Division I conference which led the university to reclassify from Division II to Division I athletics. He intentionally guides the university to be a catalyst for change, creating a talented, educated citizenry that meets the leadership, entrepreneurial and workforce needs of today's society.

Rochon's academic and professional career has focused on advocating for educational excellence, access, equity and equality. He has taught classes on the history of American Education, culturally relevant and responsive teaching practices within Pre-K through grade 12 schools, and organizational leadership within higher educational settings. His body of work has centered on the needs and advancement of diverse learners within underserved schools and communities as well as their integral contributions to the larger society. His commitment to student success has been his lifelong career focus. He cultivates a campus culture where faculty and staff are dedicated to creating a community of care, where students are free to develop intellectually, emotionally, socially and culturally through their educational experiences.

During his tenure as provost, Rochon oversaw the revamping of the University Core Curriculum and UNIV 101 seminar course. In addition, while working with faculty within his tenured academic college, he led the approval process of USI's second doctoral program in educational leadership. Rochon continues to work with faculty across the university to establish new opportunities and programs for undergraduate, graduate, and online learners while fostering best practices to recruit both domestic and international students to campus.

In October 2020, Dr. Rochon was appointed to Indiana Governor Eric J. Holcomb's Workforce Cabinet for a two-year term and to the Midwest Higher Education Compact in 2021. An active civic leader, Rochon serves on the boards of WNIN Public Broadcasting, Deaconess Health Systems, and the Evansville Regional Economic Partnership, among others. In the broader higher education community, he serves on the NCAA Division I Ohio Valley Conference Board of Presidents and the American Association of Colleges and Universities (AACU) Board of Directors. He was appointed AACU Chair-Elect for 2023 before beginning a one-year term as Chair in 2024. Nationally, he serves as a board director for the Community Anti-Drug Coalitions of America (CADCA) and was appointed chair for a two-year term beginning in 2023.

Rochon came to USI from Buffalo State in Buffalo, New York, where he served as the inaugural dean of the School of Education, associate vice president for Teacher Education and professor. He was director and co-founder of the Research Center for Cultural Diversity and Community Renewal at the University of Wisconsin-La Crosse, as well as interim associate dean and director of the school of education. He also served as chair of the Board of the American Association of Colleges of Teacher Education (Washington, DC). His professional teaching career has included work at Texas A & M University, Washington State University, and University of Wisconsin-La Crosse.

President Rochon earned a bachelor's degree from Tuskegee and both his master's and doctoral degrees from University Illinois at Urbana-Champaign. His doctoral work was in Educational Policy studies, with an emphasis in Educational History and Policy Analysis. President Rochon and Mrs. Lynn Wade Rochon are both natives of Chicago, Ill. They are the proud parents of two adult children.

### Rapping with R. Rochon, PhD

Bro. Damon K. Blythe - Associate Editor

As a 1st generation college graduate, Bro. Ronald Rochon PhD, vividly remembers the lessons taught to him at an early age by his parents. His father Alphonso, exemplified manhood & hardwork in every aspect of his life. His mother Alice, was a nurturer who ensured her children were exposed to culture. As such, she insisted young Ronald attend Tuskegee University (formally Tuskegee Institute (TI).) Although divorced before Ronald graduated high school, his parents collectively stressed the importance of education & success.

When asked to describe his "Tuskegee Experience," Dr. Rochon shared very powerful insight and reflections. "The Tuskegee Experience taught me political activism, intellectual capital and individual capacity. While at Tuskegee Institute, I found Black excellence, humility and community. Never had I seen such profound Black intelligentsia. I can vividly remember the 1st TI graduation I attended. During my freshman year, I befriended several upperclassman and they encouraged me to stay for commencement. The Speaker, Benjamin Mays, was receiving an honorary doctorate. More explicitly, I remember students wearing robes adorned with colorful cords and sashes. As they walked proudly across the stage and before their names were announced, a very long scientific title was read. I had no idea what was actually taking place. However, I was so impressed that after the graduation, I called my mother and told her I wanted that experience. I later found out that the group of students that had left an imprint on my future, were doctoral candidates," continues Rochon.

From city government to bank owners, TI leadership, faculty, staff & students, to the various professionals of Tuskegee, such powerful evidence of thriving and successful Black socioeconomics set the foundation for the greatness awaiting young Ronald. "I will leave you with this," says Rochon, "Because of Mother Tuskegee, I am doing what I'm doing."

## Undergrad Spotlight

### 75th Gala Reflections

Bro. Harper Lee (5 LE 21)

Following the 75th Chapter Anniversary of Lambda Epsilon, my LB's Dakarai Paxton (current Basileus) and Richard Smith II (current Vice Basileus,) were asked to write a brief summary of what the anniversary banquet meant to them. They both discussed how powerful the event was. "From meeting 42nd Grand Basileus Lewis and other district and state leaders, to finally meeting many of the LE brothers we had previously only spoken to via phone, it was a transformative experience to learn how our alumni brothers continue to be Bridge Builders to us current undergrads," said Bro. Paxton.

[Click here to view 75th Anniversary Banquet Video Recap.](#)

### LE Achievement Week 2022 in Review

Harper Lee (5-LE-21)

On November 13th, 2022, Iota Omega (IQ) and Lambda Epsilon (LE) chapters kicked off their annual Achievement Week in Tuskegee, AL. The brothers hosted a number of events throughout the week. On November 14, the brothers read to students at Tuskegee Public Elementary school (TPS.) Additionally, on November 16, the brothers hosted the STEM program at TPS. This program included a drone flying demonstration, sessions on math enrichment, plant growing tips and the basics of videography. The brothers also hosted their annual blood drive and assisted at the local food bank. This series of events provided uplift to the community of Tuskegee. Moreover, these events exemplify the great impact Omega Psi Phi Fraternity Inc. is known to provide. On November 18, the 2022 Achievement Week program was held at Bowen United Methodist church. IQ and LE came together to not only give recognition to brothers but also celebrate the Achievements of Omega. Lambda Epsilon presented the Basileus Award to Ms. Ladrena Taylor,

# Working Hard for LE

Bro. Brian Barnes

My name is Bryan Barnes Jr. I am 3 LE 17. As I am a young alum, I was asked to write a summary of my 75th LE Chapter anniversary experience. Long live LE!!!

In addition to the 75th chapter anniversary of LE, during TUHC 2022, my LB's and I were celebrating our 5th line anniversary. In lieu of my excitement for the many homecoming activities taking place, my main goal was to successfully execute my role on the committees I belonged to. Overall, Fall 2017 feels we succeeded in our Friday and Saturday "Set Owt," to the chapter, our family and friends.

My homecoming experience began on Wednesday evening when my guest and I landed in Atlanta. Exhausted from travel, my guest and I, made it to the hotel and laid low to prepare for the Young Alumni party Thursday night. To avoid Atlanta rush hour, we planned to hang out early in the day with our respective friend groups then reconnect before the alumni party ended. After going our separate ways for the day on Thursday, I met up with my LB's to pre-game before the party. Simply being in that moment with my brothers was the initial comradery that set the tone for such a Legendary weekend. Just as soon as the Fall 17 LE pre-alumni festivities began, it was time to make our way to the alumni party.

Although we were having a good time, an hour before the party ended, my guest and I left to get something to eat & prepare for our Friday travel. Unfortunately, I missed the Friday afternoon ALEF tent "Set Owt;" however, I was able to get finishing touches done to my suit. For the 75th Anniversary Banquet, my role was to be an extra hand. I assisted various committees to completion and left to prepare for the "Set Owt," the cooking committee was to prepare.

Three of my LB's and I had the job of smoked three alligators and fried six turkeys. As I had the longest drive and most to pick up for the gameday tailgate, I left before our task was complete.

After only three hours of sleep, I woke up, got ready and headed toward Tuskegee to ensure I beat the homecoming traffic. Because I didn't have a game ticket, I offered the ticket staff some "Set Owt" and ice, in exchange for my entry.

In addition to cooking all day, I also helped the Neos police the crowd and themselves. After the game tailgate, my line and I participated in the LE homecoming traditions of singing "Daddy Que," and "Omega Dear," at the "Rock," then marching on the "Ave."

On Sunday morning, I helped clean up, ate breakfast, and drank some of the remaining "Set Owt," before driving back to Atlanta to depart for Seattle. All in All, my first homecoming as alum, was a profoundly memorable LEdendary occasion. I have no regrets and appreciate all the bruhs for attending. TUHC 22 was exactly what I needed.

# President's Message

In the name of our lord and Savior, I bring you greetings my brethren. It is my hope a prayer that you and your family are doing well in spite of the lingering pandemic, a struggling economy and trying times currently facing us, per the reports of various research, news and media outlets. If you are reading this, God has spared your life because you have work to do! Do everything as if you are doing it for him! Seek Ye first the Kingdom and all these things will be added. Stay prayed up and focused on what is right my friends. My apologies for the tangent brethren, I needed to get that off my chest.

Thank you for your OWTstanding support in making the 75th anniversary celebration of the LEgendarY Lambda Epsilon chapter a LEgendarY success. None of it could have been done without your support. For that, I am eternally grateful. No matter what levels of support given, be it financial, service, participation or support, I thank you. With your support, we executed the following:

1. Provide \$5K in scholarships to current LE undergrads.
2. Formally contribute our first installment of \$163K for Endowment fund support to our Alma Mater via presenting a check to Dr. Morris, President, TU.
3. Host 42nd GB Ricky Lewis while celebrating our 75th and TUHC 22 in LEgendarY fashion.

While supplies last, we have additional 75th lapel pins, Chapter History and Souvenir Journals available for purchase on the ALEF website. All in a day's work. We have raised the bar and set the new standard for years to come! We are also grateful for the feedback you provided during and since our celebration!

We are using it to make OUR foundation better. Prayerfully, we have earned your trust and confidence. Together, we will endeavor to keep moving forward. "Stronger Together." Our charitable organization only moves when we support it. We are aggressively moving towards a few goals and objectives to further improve LE, ALEF, TU, the city of Tuskegee, Macon county and our beloved fraternity. To that end, we are looking to increase our TU endowment above \$300K by the end of September, 2023. This will allow us to contribute another installment during TUHC 2023. The easiest way to support the endowment is via the 1947 challenge. Give in any amount that uses the number 1947 in consecutive order: ie \$19.47, \$194.70, \$1, 947. Click the link below to contribute.

<https://alumni.tuskegee.edu/g/1947-campaign-lambda-epsilon-chapter-of-omega-psi-phi-fraternity-inc>

We are asking brothers who are able, to sacrifice and commit to becoming active alumni by regularly donating to ALEF. The recommended amount is \$50 per month; however, no amount is too small. We would like to secure and fund infrastructure projects at TU and in Macon County by the end of 2023. As always, we are looking forward to celebrating TUHC 2023 in LEgendarY fashion!!! Your support is greatly appreciated and will help ensure we continue our LEgendarY TU LEgacy. Click the link below to donate.

<https://alef.foundation/donate>

Fraternally yours,  
Zeb Miles, President, ALEF
