Course Overview

The nurse executive-advanced and nurse executive board certification examinations are competency-based assessments to validate knowledge related to the art and science of nursing leadership. Nurse executives taking this course will learn about operational structures and processes that support nursing excellence, exemplary professional practice, transformational leadership, knowledge management and the development of new knowledge and innovations. This course will not only prepare the nurse executive for a successful examination, but will also enable them to be a stronger nurse leader within their organization .

Program learning Outcomes : This program prepares the learner to:

- Apply principles of transformational leadership to advance the practice of nursing and achieve clinical and operational excellence within their organization.
- Identify strengths and areas of opportunity in preparing for board certification as a nurse executive.
- Develop a test plan strategy based on the review course and examination content outline to ensure success on the nurse executive examination.
