Speaker

Sam Merchant, MBA, CCRN, RN-BC, PCCN, RN-BC.

Mr. Missam Merchant is a Hospital Supervisor at University health System in San Antonio which is a level 1 trauma center with 1051 licensed beds. In his role, he is responsible for Centralized operations team, Bed planning and EPIC grand central clinical implementation. Mr. Merchant is a healthcare executive with more than 15 + years of progressive leadership experience in coordination of patient care, quality, efficiency improvement and managing clinical operations with fiscal responsibility. He has expertise in managing a diverse staff of healthcare professionals, effective in team building, medical staff relations, recruitment, and employee engagement. In his leadership and clinical roles, he continually establishes standards of safety and operational efficiencies; and adherence to compliance and performance standards to ensure quality patient care. Though he is a leader at work, he is an educator at heart. Teaching and Mentoring is his passion. Mr. Merchant is an Independent Certified Speaker, Coach and Teacher by the John Maxwell Company. Mr. Merchant is the President of San Antonio Indian Nurses Association. He holds 6 very prestigious national certifications from ANCC and AACN and he love to teach nurses strategies to succeed in getting certified. Mr. Merchant is an independent consultant with MED-ED and is also TeamSTEPPS master trainer for the Department of Defense. Mr. Merchant received his bachelor's degree in Nursing and MBA from India and is currently Pursuing DNP degree from Abilene Christian University. Mr. Merchant has presented nationally and internationally on various nursing topics.

Course Overview

This two-day course is designed to provide nurses with the tools, confidence and knowledge to successfully complete the CV Nursing Exam. The exam content outlines and blueprints from the ANCC and ABCM were used to develop this program. The exam content outlines and blueprints from the ANCC and ABCM were used to develop this program. This concentrated review will focus on the key aspects of caring for patients with cardiac and vascular disease across the spectrum of care. Included is a review of cardiac anatomy and physiology, risk factors and risk reduction strategies and professional aspects of caring for this patient population. Participants will also complete review questions to prepare them for the types of questions that will be on the exam, as well as test-taking strategies. All aspects of the Practice Domains will be addressed at the end of Day 2 and strategies for test-taking will also be covered.

Program learning Outcomes : This program prepares the learner to:

- Gain an in-depth knowledge of the pathophysiology of disease states in the CV patient as well as current management strategies.
- Gain the confidence to pass the CV exam.

Nurse Executive/Leadership Exam Review (Basic/Advanced)

Course Description

The Nurse Executive/Leadership Exam Review is designed to provide an overview of those subjects which are included in the ANCC/AONL certification exam. Subjects include professional practice including nursing theory, research, quality improvement, process improvement, change theory and ethics. Healthcare economics is reviewed, as well as the healthcare environment. Lastly, delivery of care including regulatory, process outcome, Magnet recognition, benchmarking, charts and graphs are described. The course is a fast-paced, intense presentation and review of the exam blueprint along with preliminary study is recommended prior to attending. After attending, participants are encouraged to create a study plan individualized to meet their needs to successfully pass ANCC's/AONL certification exam.

Program Learning Outcomes

This program prepares the learner to:

- Describe the Nurse Executive Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.

Agenda

Sign-in begins at 7:30 am. Each day includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.

Course Overview

The nurse executive-advanced and nurse executive board certification examinations are competency-based assessments to validate knowledge related to the art and science of nursing leadership. Nurse executives taking this course will learn about operational structures and processes that support nursing excellence, exemplary professional practice, transformational leadership, knowledge management and the development of new knowledge and innovations. This course will not only prepare the nurse executive for a successful examination, but will also enable them to be a stronger nurse leader within their organization .

Program learning Outcomes : This program prepares the learner to:

- Apply principles of transformational leadership to advance the practice of nursing and achieve clinical and operational excellence within their organization.
- Identify strengths and areas of opportunity in preparing for board certification as a nurse executive.
- Develop a test plan strategy based on the review course and examination content outline to ensure success on the nurse executive examination.
