Chiefsc.com

UEI: VJHXFEL47W19

CAGE Code: I2ZQT0

### Core Competencies:

**Chief SCC delivers Specialized Containment and Compliance for high-risk environments.** Providing hazardous material solutions for federal, state, and commercial clients operating in high-risk and regulated environments.

- Hazardous Material Handling & disposal Support
- Environmental remediation & Site Cleanup
- Demolition & Contaminated Site Preparation
- Containment & Decontamination Operations (CBRN – aligned)
- OSHA & EM 385 -1-1 Safety Compliance Enforcement
- Regulated Waste Coordination & Transportation
- Emergency Response & Rapid Deployment Operations
- Construction Site Safety Oversight & Risk Mitigation

### Past Performance:

While **Chief SCC** is a newly established entity, leadership brings extensive experience in executing operations in hazardous, regulated, and high-risk environments.

- FAIRWINDS Terminal Services (Oct 25 – Jan 26). Managed logistical transport of specialized materials from NC to VA (multi-site coordination)
- SRS Group (Jan 25). Supported DTRA-related consultation on turbine energy systems and hazard considerations.
- The Miller Group (Jan 24 – OCT 24) Water damage and renovation of property
- Oversaw CBRN safety operations, risk mitigation, and compliance enforcement
- Executed multi-trade construction coordination, planning, and site operations

### Differentiators:

**Chief SCC** delivers a rare combination of elite operational leadership, environmental compliance knowledge, and construction execution capability.

- 25+ years leadership experience in high-risk, mission-critical environments
- Former Navy SEAL Senior Operator (DEVGRU - TIER 1)
- Extensive experience in CBRN environments and decontamination operations
- Proven ability to lead teams (up to 60 personnel) in hazardous conditions
- Trained in federal safety standards including OSHA and EM 385-1-1
- Rapid response capability for emergency and disaster-related operations
- Experienced in supporting federal, military, and high-risk operational environments
