

\***The Modern versions INVADE and are combinations of Vaticanus-1475 and Sinaiticus 1844**-found in a trash can. These two **disagree in over 3000** places, in the four gospels alone, and make up most of the so-called Nestle's text, with more than **400 modern copy-righted English versions**. There are no other Bibles like the Sinaiticus Vanticanun-**NOT ONE! (NO NOT ONE!)**

(Compare God's Bible from heaven and the 400 plus changed Bibles, **God condemns in Revelation 22:18 and 19, for changing his words, EVEN ONE WORD.**)

\***1-A.D. 1537** - The **Matthew Bible** (commonly known as the Matthew-Tyndale Bible), was published, combining the works of Tyndale, Coverdale, and John Rogers. **Coverdale was involved in five English translations**, and all agreeing with the King James 1611 authorized version-**coming from the Textus Receptus**.

\***2-A.D. 1539** - The **Great Bible**, the first English Bible authorized for public use-weighed eleven pounds.

\***3-A.D. 1553** - **Robert Estienne** published a **French Bible** with chapter and verse divisions.

\***4-A.D. 1560** - The **Geneva Bible** was printed in Geneva, Switzerland. It had many anti-Catholic footnotes. It was translated **by English Protestant refugees** who suffered terrible persecutions. It was published by **John Calvin's** brother-in-law. **ALL TRANSLATION was DONE IN GENEVA**. The Geneva Bible was the first English Bible to add numbered verses to the chapters. **It became the Bible of the Protestant Reformation**, was more popular than the 1611 King James Version for decades. **It came over on the Mayflower**. While it was the same as other previous Bibles, the problem was **that King James was offended** by its strong worded footnotes, for the government leaders as himself, and these strong foot notes, adding to Roman Catholic persecution **against Protestants**. It affected their Catholic neighboring countries dealing with them in business. These were so alike that **the translators used the past versions, to translate** & did little actual translation work, compared to what Tyndale did.

\***5-A.D. 1568** - The **Bishop's Bible**, was like the Great Bible, except it was put together by Bishops and changed a few words, but not necessarily meanings.

\***6-A.D. 1582** - After 1,000 years, Rome produced the first English Catholic Bible, from the Latin Vulgate. **For a thousand years, Rome had not recognize it, nor any Bible**. The Protestant Reformation forced Rome to come up with a Bible to keep from losing so many people. **Popes & priests burned both Bibles & Bible readers**. (Now disagreeing Bibles)

\***7-A.D. 1592** - The Clementine Vulgate (authorized by Pope Clementine VIII), a revised version of the Latin Vulgate, became the claimed authoritative Bible of the Catholic Church.

\***8-A.D. 1611** - The **King James Version**, was also called the "**Authorized Version**" of the Bible. It has been the most printed book in history. It came from the **Textus Receptus as did Tyndale's, Matthew's, Coverdale's, the Great or Chained, Stephanas, Geneva, Bishops & again KJV 1611**.

**\*\*We have these six & can tell you where you can print them off free, & put them in large notebooks, as we have. We compared them to each other. They have the same verses and say the same.** So, the King James 1611 translation goes back to 1-Moses, 2-Old Testament prophets, 3-Christ's apostles, 4-Erasmus the most educated man of his times, 5-William Tyndale, 6-John Rogers with his Matthew Bible, 7-Myles Coverdale, the Great or Chained Bible, 8-Stephanas, 9-Geneva Bible, 10-Bishop's Bible. Then we have the 11-King James 1611. **There were millions of English Bibles agreeing with KING JAMES 1611, years before it was produced in England. Remember that all the Textus Receptus Bibles said the same truth without changing meanings. Compare them yourself. (Changed Bibles are not God speaking)**

Desiderius Erasmus

\*9.

The Waldensians (**Valdoi really**) sent two representatives to Geneva to meet the reformers who made the 1560 Geneva Bible. They discovered that their Bible was the same as the Protestant Greek Textus Receptus. **These two Bibles had not been in contact for 1500 years**. The Waldensians or Valdoi, financed this translation of the Reformers into French for their use. **Learn of the sacrifice of these to keep the Word of God pure. May we do the same.** (Evidence of this deceit is here, will we deny it?)

\***10-A.D. 1663** - John Eliot's Bible is the first Bible printed in America, in the **native Indian language**.

\***11-A.D. 1782** - Robert Aitken's Bible is the first English language (KJV) Bible **printed in America**.

\***12-A.D. 1790** - William Young printed the first pocket-sized "**school edition**" King James Version Bible in USA. **Praise God for God's Word!!!**

**The "Greek Textus Receptus" is God's pure Word, not the changing Nestle Text of modern versions. History here, until Modern Bibles about 2000 and China publishes more and more with the Bible Society's help. Most Bibles come from China.**
