This Super Motivational Learning Testing does the following:

1-Let's God's Word speak and question students.

2-Makes answers easy to find rather than as traditional test wasting time and energy searching for answers.

3-These Super Learning Test use the same verses as does Mobile Bible Institute found at Faithmbi.com on internet, thus pushing and pulling God's word into the student's mind even into his or her subconscious mind so the student can recall and share-not just recognize he has studied this information.

4-Mobile Bible Institute and Bible Community Church University testing has learners to download the study sheet or study it without downloading. Then the study sheet and the final test are identical, only requiring an official examiner to give the final test for recognition or certificate or degree.

5-MBI-BCC requires 90 to 95 percent correctness of answers or repetition is required and the student to receive a Super-Super Certificate has to enlist and test

five more students and test as he is tested. BD
